BUSY SESSION OF THE BOARD OF INSTRUCTION

Arrange for the Repairs on Buildings---Reelect Supt. MacDougal---Transact Other Business.

There was a busy session of the Board of Instruction on Tuesday evening, and considerable business of importance was transacted.

Mayor Adams presided and the members present were Messrs. Thayer, Hartford, Gooding, Knight, McCarthy, Hodgdon, Foster, Mrs. Hewitt, Mrs. Wood and Mrs. Benfield.

The committee on salaries to whom was referred the matter of the eighth grade teachers' salaries recommended that the maximum be raised to \$800 a year and that in case of substitutes the superintendent be empowered to make the best possible arrangements without regard to the limit.

Mrs. Hewitt objected to the adoption of the report on the ground that there might be a case where even more money would have to be paid for eighth grade teachers who are virtually high school teachers, and she favored a motion that would simply take the eighth grade teachers out of the salary list of the graded teachers and give the Board the chance to make the salary.

There was some discussion over the standing of the eighth grade in regard to the high school and the question of teachers for this grade.

Superintendent MacDougal stated that the question of getting teachers was getting more difficult every day. For instance, the state normal schools

(Continued on second page.)

LOCOMOTIVE ENGINEERS GET A RAISE

The conferences between the officials of the Boston and Maine railroad and the men of the several organizations which has been in progress for months, has been brought to a head and a satisfactory agreement has been reached.

The important matter was the 10 hour basis for a working day, for engineers of the entire system.

The yard and other men who have had an eight hour or less than 10 hour workday will not suffer any increase of hours from their old schedule.

The minimum wage rates under the new schedule are: All "consolidation" runs, both passenger and freight \$4.70 a day; all other freight runs, \$4.30 a day; all passenger locomotives above 70 tons \$4.10 a day; local passenger trains, \$4 a day; switcher engineers, \$3.80 a day.

A general rearrangement of the working schedules of many of the men was necessary to bring about the desired shorter hours for the engineers.

Special Luncheon every day at the National Hotel, 40 cents. Club

KITTERY LETTER

The Firemen's Ball at the Point

Rev. Mrs. Coffin Moves to Her Parish

Latest Information About the Summer People

Another New Automobile Comes into the Town

Kittery, Me., May 4.
Kittery correspondent's telephone 297-5.
Fred U. Pray of the Rogers road has purchased a forty horse power automobile.

A contemporary Tuesday evening stated that the price of coal was \$6.50. The Herald correspondent, however, is informed that since April 1 it has been \$6.75.

Mrs. James T. Berry of Locke's Cove has received the sad news of the death of her mother, Mrs. James L. Mattatall at Colchester, N. S. She left ten children.

A regular meeting of Constitution lodge, No. 88, Knights of Pythias, was held in Odd Fellows hall Tuesday evening.

The schooner Charles L. Jeffrey today finished discharging her cargo of coal at George D. Boulter's wharf.

Rufus H. Adams of Echo-street has had his house painted.

John Carroll of Wentworth street has purchased a Ford touring car.

Rev. Mrs. Winnifred B. Coffin has moved her household goods from Pine street to Kittery Point where she is filling the pulpit of the First Christian church.

Simon Huntress of South Berwick was a recent visitor in town.

George H. Fernald of Worcester, Mass., his son Bert and guest, James Scott, passed Sunday at their summer home at Kittery Depot.

Winthrop Lippitt Marvin of Newtonville, Mass., usually a summer resident of this town, has rented for the season, the old Marvin homestead between the first and second New Castle bridges.

Mrs. Fred H. Goss of the Intervene was a recent visitor in Kittery Point.

Nelson Webber, Ernest Emery and Harry Hussey were among those from here who attended the firemen's May ball at Kittery Point Tuesday evening.

Whipple Lodge, Independent Order of Good Templars, will meet this evening in Odd Fellows' Hall.

The next special event in town will be the third annual ball of the Kittery Yacht club on May 13.

The cribbage tournament was in session at the Kittery Yacht club on Tuesday evening. Albert Billings won first prize, Fred Chase second, Harry Goodrich third and Fred Goss the booty.

That everlasting easterly wind with its accompanying disagreeable weather

er bobbed up serenely again this morning.

Kittery Point correspondent's telephone 297-5.

Frisbee's Hall, resplendent in profuse decorations of yellow and white crepe paper, the company colors, probably never welcomed a large throng of merry dancers as attended the first annual ball of the Kittery Point Volunteer Firemen's Association on Tuesday evening. For the success of the affair credit should be given to Directors Arthur C. Gunnison and Arthur L. Hutchins, and Misses Cora Seaward, Margaret Fletcher, Hattie Lewis and Hattie Fuller. Music was furnished by Hoyt and Parker's orchestra of four pieces. Several novelty dances added to the enjoyment of the occasion. Punch was served and M. Morton Seaward's bakery below did a rushing business with ice cream and cake at intermission. Portsmouth, Kittery and York were represented on the floor. The grand march was led by Miss Cora Seaward and Arthur Gunnison. At the whist party in the hall overhead Mrs. William A. Symonds won first ladies' prize, a box of fine stationery; Mrs. Wentworth Seawards took the ladies' consolation, a basket of perfumery; James Chisholm won gentlemen's first prize, a cut glass and silver ash receiver, and Ben Seaward got the gentlemen's consolation prize. In short the Kittery Point fire company scored a big hit with its first annual ball, and the best advice obtainable is to keep the ball a-rolling.

Mr. and Mrs. Winfield L. Tobey on Monday moved from the house of John H. Mudge in Foye's Lane to that of Capt. T. Burton Hoyt opposite the car barn.

Miss Lizzie Grinley has returned here after an extended visit in Wolfboro, N. H.

The funeral services over the body of Miss Alice Gertrude Cooper, the little daughter of Mrs. Susie Cooper were held at two o'clock this afternoon from the Free Baptist church. The interment was in the church cemetery. Rev. Edwin P. Moulton officiated. Among the many floral tributes was a magnificent pillow from her school mates. The funeral director was O. W. Ham.

Miss Flora Noble has returned to her home in Haverhill after a visit with Mrs. Lillian Cousins.

Norris Randall has gone to Attleboro, Mass., where he has taken employment.

An effort has recently been made by out of town parties to secure the ancient Bray house near the postoffice for use as a tea room.

George F. Baker, who has been employed on the gypsy moth force in Barnstead, N. H., has been transferred to this town, his home.

Mrs. J. Chester Cutts is confined to her home by illness.

Oliver L. Frisbee of Portsmouth was in town today.

Capt. Johnstone of the schooner M. D. Cressy is visiting his family in West Medford, Mass., while the vessel is storm bound here.

Mrs. Henry Brewer, who has been visiting Mr. and Mrs. Charles C. Dodge, has returned to her home in Jamaica Plain, Mass.

Grand Juror William Grogan and Traverse Juror H. C. Call are attending the York county supreme court at Alfred.

Kittery will send seven delegates to the Republican state convention at Augusta on June 29.

STRUCK BY LIGHTNING

The House of Mrs. Trefethen on Salem Street

Lightning during the storm Tuesday evening was certainly busy on Salem street and caused much fear and fright to the residents of that district.

During the last heavy flash it struck the residence of Mrs. Harriet E. Trefethen, wrecking the chimney, ripping off the shingles and otherwise damaging the roof.

Telephone service and electric lights in that section also suffered as a result, but are in working order today.

NEW YORK YARD CANNOT DOCK HER

Battleship Michigan Too Big for the Dry Dock

Other Ships Assigned There May Have the Same Trouble

Considering the circumstances which brought her there the coming of the Michigan to the New York navy yard is regarded by her officers as a striking commentary on the yard itself. The New York navy yard is popularly regarded as the chief navy yard on the Atlantic seaboard, as it certainly is the most expensive to maintain. Yet with all of that distinction none of its dry docks is able to receive a vessel of the Michigan's displacement. To undergo a grooming process for her trial runs the big battleship went to the Norfolk yard where such marine shrubbery as had collected on her underbody was removed.

The only purpose of her visit to the New York yard is to have engine counters and machometers installed. This will require only one or two days. Immediately the work is completed the battleship, accompanied by the two destroyers, will proceed to the Rockland course.

The Michigan is under the command of one of the best known officers of the navy, Capt. Nathaniel R. Usher, who until his present assignment was assistant to the Chief of

Bureau of Navigation. During the Spanish-American war Capt. Usher commanded the torpedo boat Ericsson. His executive officer was Ensign Irving I. Gillis. The whirling of time now brings these two together again, Usher in command of the Michigan and the young ensign, now a lieutenant commander, as the chief engineer of the battleship.

MANY DOGS LICENSED

Two Hundred and Ninety-Four in This City to Date

Judging from the experience of some dog owners last year, the masters of canines are providing for the new lease of life for Carlo, as required by law. Up to date 294 dogs have been licensed, which is nearly 240 in excess of last year.

There are several more yet to be covered with a certificate for their existence during the year, and the owners will be allowed until May 15 to remit. After that the dog man will be doing business and be out with his dragnet.

NOTICE

The Fannie A. Gardiner Rebekah Lodge will observe its tenth anniversary Friday evening, May 6. Members privileged to invite one friend. The circle supper will be omitted.

WHAT WE SAY IS SO

THE MANDARIN'S FAN

A Gift That Had In Itself a Subtle Meaning.

By CLARISSA MACKIE.

(Copyright, 1910, by American Press Association.)

Mrs. Hoffman was sewing in the deep, cool veranda of the bungalow. Jeremy, her husband, was coming up the path.

"What have you got today, Jeremy?" she asked laughingly as he laid an oblong package on the wicker table. "Another cunning gift, sweetheart?"

He smiled, clapping his hands at the drowsy punkah boy on the mat. The great fan swung again into motion as the boy awoke to energy, and a servant brought the inevitable tea tray and tall glasses of iced lemonade. Jeremy Hoffman leaned back in his chair with a sigh of relief. "It has been beastly hot down in the city. I've been closeted with Sheldon all the afternoon over that treasure."

IN ANOTHER INSTANT SHE WAS LYING IN CONSCIOUSNESS IN HIS EMBRACE.

business, and when I returned to my office I found an envoy from Ling Wei, bearing many friendly messages and this gift for you."

Mrs. Hoffman held out her hand for the package. "There, Jeremy! I told you the mandarin's fan swinging from her wrist! An hour after her arrival Jeremy accompanied her home again, sitting beside her in the carriage, holding her unconscious form in his arms."

This time her illness was of longer duration, and in his distress Jeremy vowed he would return to America immediately upon her recovery. But the recovery was slow, even under the skillful ministrations of the French doctor.

"I told you to take care—to watch!" he blurted impatiently at Hoffman. "I did, Dr. Davesne," growled Jeremy, "dropping his head into his hands. 'God knows I have protected her. If she recovers sufficiently I will take her home.'"

There Ralph Elwin found him. "Sheldon called me to come out—said you were in trouble and that I might help you out on the business," said the former as he shook hands with Hoffman.

"The business can go hang!" said Jeremy passionately. "All I care about is to take my wife away from this cursed country. Pardon my temper, Elwin, but you can understand."

Elwin nodded gravely. "I can understand. I wanted too long and lost my wife. What is the matter with Mrs. Hoffman? I thought her looking unusually well when you called."

Jeremy explained, and Elwin listened with his face in shadow. As he finished, Jeremy picked up the mandarin's fan from the table where he had flung it the night of their return from the dinner party.

"She was looking quite well and smiling herself with this thing, when all at once she just crumpled into a heap," he said.

"Let me see it," said Elwin in a strange voice. "He examined the fan with keen intensity, lifting it once to his nose and then hastily withdrawing it."

"Where did she get it?" he asked sharply. "A gift from Ling Wei. You know, I'm on friendly terms with the old scoundrel, although..."

"Enough!" So was it. Ling Wei was Jewish in his gifts to us. He gave my wife a fan like this one, and—oh, my God, if I had only known in time!" Elwin's voice rang harshly as he leaped to his feet. "It is impregnated with some cursed poison, Jeremy. Ask Dr. Davesne! Let him examine the fan. If he recognizes the poison he can supply the antidote and cure your wife. As for Ling Wei—"

"But why—why should he attack her? Why not me—why?" stammered Jeremy excitedly.

"Ling Wei does not fight in the open, old man. He killed my wife, and it sent me home. He thought to do the same for you and would have done so in the end. Mary was taken ill in the same way, only, being of a weaker constitution, she succumbed to the poison at once. My advice to you, Jeremy, is to take Mrs. Hoffman home as soon as she is sufficiently recovered. Let your career go. You can find plenty to do at home. I will settle with Ling Wei. I will carry this mission through without one concession in his behalf."

"I will stand by you, Elwin, and together we will fight it out," declared Jeremy, clasping the other's hand.

"No," said Elwin. "Love is greater than fame or revenge or the carriage of justice. Love is greater than all. Guard it carefully, Jeremy, and some day I will return to San Francisco and tell you how the romance of the mandarin's fan turned out to be a tragedy after all."

"You are looking ghastly, Nell. What is the matter? Do you feel ill, dear?"

As he asked the question Jeremy's arm was outstretched to catch his wife's swaying form, and in another instant she was lying unconscious in his embrace.

"Too much dancing—playing too hard—nerves unstrung—verge of prostration," snapped out the wily little English doctor as he left the Hoffman bungalow in the pale dawn.

Jeremy went back into the sickroom and looked down at the white face on the pillow. He bitterly reproached himself for letting his fragile wife dance her way so merrily into an illness. But they had been married only a brief three months, and his important mission had carried them directly to Shanghai, his sole thought outside of business had been to make her happy and keep her amused, and now if anything happened, if Nell should die,

he would leave the cursed country forever, career or no career.

He recollected with a sudden misgiving that his predecessor had thrown over the task because his wife had died—Elwin had returned to America and chucked the service forever.

Several days afterward Nell had recovered sufficiently to be brought out into the cool, matted sitting room. Her illness had taken the form of a strange inertia. Hour after hour she would lie with dark lashes fringed against her white cheeks, her bosom scarcely stirring with each feeble breath.

The little English doctor was plainly puzzled. He fetched a clever French physician, and together the two men consulted over the case. The French man went away without offering an opinion, but the next day he came back and ordered Jeremy to take his wife away.

"It is poison—so insidious—so subtle—to linger here is to die. Take her away."

"Where can I take her?" demanded Jeremy, wild with fear and anxiety. "Anywhere—down to Hongkong if you like. It will be a change."

So Jeremy gave up the bungalow and discharged all the servants, even the faithful old nurse, whom Nell had learned to love. After them he tossed the medicine bottles and pills and powders. If a secret enemy lurked in his household, one whose object was to destroy his beautiful bride, the general clearing out would include him.

The sea voyage and the arrival at the picturesque island, with its delightful points of interest and its charming English population, did Nell Hoffman a world of good. Gradually the gently left her and her bright spirits returned. The French doctor made a special trip down the coast to see her and pronounced her on the road to recovery.

"Be careful of her," he urged Jeremy. "She is not strong. I cannot determine what drug or how it has been administered, but surely some slow poison has been given to your wife. Watch, and take care if you have an enemy."

That very evening they attended a dinner party. Nell, lovely in pale green with the mandarin's fan swinging from her wrist. An hour after her arrival Jeremy accompanied her home again, sitting beside her in the carriage, holding her unconscious form in his arms.

This time her illness was of longer duration, and in his distress Jeremy vowed he would return to America immediately upon her recovery. But the recovery was slow, even under the skillful ministrations of the French doctor.

"I told you to take care—to watch!" he blurted impatiently at Hoffman.

"I did, Dr. Davesne," growled Jeremy, "dropping his head into his hands. 'God knows I have protected her. If she recovers sufficiently I will take her home.'"

There Ralph Elwin found him. "Sheldon called me to come out—said you were in trouble and that I might help you out on the business," said the former as he shook hands with Hoffman.

"The business can go hang!" said Jeremy passionately. "All I care about is to take my wife away from this cursed country. Pardon my temper, Elwin, but you can understand."

Elwin nodded gravely. "I can understand. I wanted too long and lost my wife. What is the matter with Mrs. Hoffman? I thought her looking unusually well when you called."

Jeremy explained, and Elwin listened with his face in shadow. As he finished, Jeremy picked up the mandarin's fan from the table where he had flung it the night of their return from the dinner party.

"She was looking quite well and smiling herself with this thing, when all at once she just crumpled into a heap," he said.

"Let me see it," said Elwin in a strange voice. "He examined the fan with keen intensity, lifting it once to his nose and then hastily withdrawing it."

"Where did she get it?" he asked sharply. "A gift from Ling Wei. You know, I'm on friendly terms with the old scoundrel, although..."

"Enough!" So was it. Ling Wei was Jewish in his gifts to us. He gave my wife a fan like this one, and—oh, my God, if I had only known in time!" Elwin's voice rang harshly as he leaped to his feet. "It is impregnated with some cursed poison, Jeremy. Ask Dr. Davesne! Let him examine the fan. If he recognizes the poison he can supply the antidote and cure your wife. As for Ling Wei—"

"But why—why should he attack her? Why not me—why?" stammered Jeremy excitedly.

"Ling Wei does not fight in the open, old man. He killed my wife, and it sent me home. He thought to do the same for you and would have done so in the end. "No," said Elwin. "Love is greater than fame or revenge or the carriage of justice. Love is greater than all. Guard it carefully, Jeremy, and some day I will return to San Francisco and tell you how the romance of the mandarin's fan turned out to be a tragedy after all."

"You are looking ghastly, Nell. What is the matter? Do you feel ill, dear?"

As he asked the question Jeremy's arm was outstretched to catch his wife's swaying form, and in another instant she was lying unconscious in his embrace.

"Too much dancing—playing too hard—nerves unstrung—verge of prostration," snapped out the wily little English doctor as he left the Hoffman bungalow in the pale dawn.

Jeremy went back into the sickroom and looked down at the white face on the pillow. He bitterly reproached himself for letting his fragile wife dance her way so merrily into an illness. But they had been married only a brief three months, and his important mission had carried them directly to Shanghai, his sole thought outside of business had been to make her happy and keep her amused, and now if anything happened, if Nell should die,

he would leave the cursed country forever, career or no career.

He recollected with a sudden misgiving that his predecessor had thrown over the task because his wife had died—Elwin had returned to America and chucked the service forever.

Several days afterward Nell had recovered sufficiently to be brought out into the cool, matted sitting room. Her illness had taken the form of a strange inertia. Hour after hour she would lie with dark lashes fringed against her white cheeks, her bosom scarcely stirring with each feeble breath.

The little English doctor was plainly puzzled. He fetched a clever French physician, and together the two men consulted over the case. The French man went away without offering an opinion, but the next day he came back and ordered Jeremy to take his wife away.

"It is poison—so insidious—so subtle—to linger here is to die. Take her away."

Weak? Tired? Run-down?

These conditions come from overwork, a weak stomach, overtaxed nerves or feeble blood. When you feel "all in"—hardly able to drag about, no energy, no ambition, easily exhausted and can't sleep—take

BEECHAM'S PILLS

and note what a difference they make in your condition. The stomach is the first to feel the good effects. Food tastes good, the digestion is strengthened; bowels and bile work regularly, the blood is cleansed, and the nerves rested. The whole system responds to the tonic action of Beecham's Pills. Soon there is the buoyant feeling of returning health.

Fresh Strength and New Life

Boxes 10c. and 25c., with full directions.

BUSY SESSION OF THE BOARD OF INSTRUCTION

turned out 75 teachers a year, where as the demand each year was for 1100 teachers in this state. This city, he said, was better off than the other cities, having a training school of its own, and the training school teachers here were being constantly offered good salaries for out of town work. For the eighth grade he considered that college women were better, although it was always a question of the woman rather than the opportunities she might have had, but with everything equal the college woman was better for these grades.

It was finally voted to take the eighth grade teachers out from the schedule and to allow the superintendent to employ in securing substitutes when they were needed.

Coal Contract Awarded.

Mr. McCarthy, chairman of the committee on purchases, reported the bids made for the coal supply of the year for the schools, and stated that the bid of C. E. Walker was the low est by \$31 on the total amount, and they had awarded him the contract. The contract for wood was awarded to McIntire. The Board confirmed the awards.

Schoolhouse Repairs.

Mr. Hodgdon, for the committee on school houses, reported that they had considered the question of repairs to the Franklin school and the Spaulding school and asked for an opinion of the board on the question of wooden stairways or iron fire-escapes.

This brought out a discussion of the needs of these two buildings, and the board went on record as against the use of iron fire escapes on buildings where there were little children.

Superintendent MacDougal submitted plans made by a contractor for the two buildings. At the Franklin school it provided for a change from the present steep, winding stairway, and for the erection of another stairway at the other end of the building giving an exit from the second floor. Some of the committee favored an iron stairway, and others a wooden stairway outside of the building, but this was opposed on account of the looks, which led Mrs. Wood to remark that the safety of the children was being considered, not the looks of the building. The inside stairway was finally adopted.

On the Spaulding school, a stairway outside of the building, but to be covered, was favored for a second exit, and this was left with the committee, who were authorized to proceed at once with the repairs.

A Tablet for General Whipple.

Rev. Alfred Elwyn and Mr. H. A. Yeaton for the New Hampshire Sons of the American Revolution, asked permission to place a bronze tablet on the Whipple school, in memory of General William Whipple, the Portsmouth singer of the Declaration of Independence, after whom the building was named. Mr. Foster stated that when the building was named after Gen. Whipple the city agreed to place a marble tablet in the building, but had never got around to it.

On motion of Mr. Hartner the request was granted, the tablet to be erected under the supervision of the district committee and the Sons of the Revolution.

The superintendent's report of 1910 scholars in the schools was accepted. The Y. M. C. A. were granted the loan of a horizontal bar from the Whipple school.

The report of the finance committee was received and accepted. It was as follows:

Instruction.	
Expense for month	
Salaries of teachers and superintendent	\$3408.45
Transportation	12.50
General expenses	5.12
Teachers' desk and office supplies	6.15
Total	\$3432.22

THE STATE BOARD OF EQUALIZATION

Concord, May 4.—At the meeting of the state board of equalization, held at the White House on Tuesday, organization for the coming year was effected by the reelection of the old board of officers, including Charles, McDaniel of West Springfield, as president; and Edwin P. Thompson of Lancaster, clerk.

Adjournment was taken to the last Tuesday in August, when the work of making the annual assessments of taxes on the railroads and telegraph and telephone companies will be taken up.

OUR FIRST MINT.

Some of its Curious Old Rules and Regulations.

The first United States mint at Philadelphia was naturally a very unpretentious affair. The material for coinage was secured from abroad. There was found much difficulty to get any one of experience to operate the coinage, and the salary list of the first mint employees was: David Rittenhouse, director, \$2,000 per annum; Tristram Dalton, treasurer, \$1,200; Henry Voigt, coinier, \$1,500; Isaac Hugh, clerk, \$312.

The regular coinage of copper began in 1793, silver in 1794 and gold in 1795. The following curious extracts are taken from the mint rules and regulations of the early days:

"The allowance under the name of drink money is heretofore to be discontinued."

"The operations of the mint throughout the year are to commence at 5 o'clock in the morning."

"Christmas day and the Fourth of July—and no other days—are established holidays at the mint."

"He (watchman) will keep in a proper arm chest, securely locked, a musket and bayonet, two pistols and a sword."

"The watchman must attend from 6 o'clock in the evening to 6 o'clock in the morning, must ring the yard bell every hour and send the watchdog through the yard immediately after ringing the bell."

Besides the Philadelphia mint, which is now established in palatial quarters at Seventeenth and Spring Garden streets, there are mints at San Francisco, Denver and New Orleans and an assay office at Carson City.

OLD LONDON BRIDGE.

It Linked the Twelfth Century With the Eighteenth.

For centuries old London bridge, with its double row of houses, was the home of generations who lived and traded over the Thames waters.

Holbein lived and painted there. Osborne, the pretence lad, leaped through a window in the house of his master. Sir William Hewet, to the rescue of Sir William's daughter, who had fallen into the swollen flood of the river below, and by winning her for his wife laid the foundation of the dual house of Leeds.

Crispin Tucker had his shop on the bridge, to which Pope and Swift and many another author of fame made pilgrimages to purchase books and gossip with the waggish shopkeeper. Crocker's Dictionary was printed "at the Looking Glass on London bridge," and gigantic corn mills dominated the south end of the structure, not many yards from the wonderful Nonsuch House, a huge wooden pile with turrets and cupolas brought from Holland.

Such in brief outline was the London bridge which linked the twelfth with the eighteenth century and which when it was on its last tottering legs was removed to give place to its fine successor of our day, the stone in which is said to be "nearly double that employed in building St. Paul's cathedral."—Montreal Standard.

Doves and Coronations.

At the ancient ceremonies of coronation of the French kings after the anointing had been performed some white doves were let loose in the church. This was supposed to symbolize the power of the Holy Ghost in directing the king's actions. A similar idea seems to have inspired all early kings, for among the English regalia is the rod of equity or the scepter with the dove. This is simply a golden rod with a mound at the top, which supports a cross. On this cross is a dove, fashioned of white enamel, with expanded wings. Some fine diamonds or ornament the rod in various places.

Gender of Garlic.

"Why is garlic masculine gender?" asked the man who markets. "It must be masculine because the green grocers I buy from call it 'he.' They are mostly Italians and ought to know the sex of garlic if anybody does. Of all the vegetables and aromatic herbs I buy garlic is the only one to which masculine virtues are ascribed. Everything else is neuter. To call garlic 'it' would be an insult. The garlic, he is fresh, he is fine, he is cheap, he is dear. Funny, isn't it?"—New York Times.

He Had Quit.

"You say you have quit smoking?" "Yep; never going to smoke again." "Then why don't you throw away those cigars?" "Nerger! I threw away a box of good cigars the last time I quit smoking, and it taught me a lesson."—Houston Post.

Not what you do, but how you do it is the test of your capacity.—Studley.

NAVY ORDERS

Lieutenant A. W. Johnson, to the Delaware.
Lieutenant W. R. Van Auken, to duty at naval academy.
Lieutenant C. S. Kampff, to the Michigan as ordnance officer.
Ensign W. B. Woodson, to the Connecticut.
Ensign J. E. Pond, to the Petrel as senior engineer officer.
Midshipman A. S. Kuman, resignation accepted.
Acting Assistant Surgeon A. L. Jacoby, appointed.

Arrived—Mayflower at Piney Point; Flusser, Held and Apache at navy yard, New York; New Hampshire at Portsmouth, N. H.; Wolverine at

Cleveland; Chattanooga and Samar at Shanghai; Michigan at navy yard, New York.

Salied—Sioux from Boston for Rockland, Me.; South Carolina, from Provincetown for Hampton Roads.

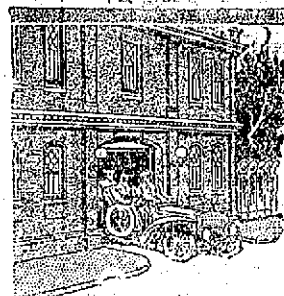

The Iowa placed in commission at the navy yard, Norfolk.

The Petrel placed in commission at the navy yard, Mare Island.

TWO BREAK OUT OF AN ASYLUM

Lunatics Keep Out of Drag-net For Whole Day

CAPTURED IN MANCHESTER

Boy Accused of Killing Aged Woman Was Considered Extremely Dangerous—Wideawake Policeman Arrested One, Who Put Up Plausible Story and Is Near Release, and Then Arrests His Runaway Mate

Manchester, N. H., May 4.—After an all-day chase, extending over parts of three states, in which more than a thousand people took part, Ambrose Van Buskirk, 16 years old, accused of the murder of an aged Lawrence woman a year ago, and his companion, James Walway, aged 25, both escaped lunatics from the Danvers, Mass., insane hospital, were taken into custody here.

No trace was found of the pair from the time they broke out of the Danvers asylum between 2 and 4 o'clock yesterday morning until Walway was recognized here late last evening by Officer Wood from the description of him sent out at roll call.

Officer Wood found Walway alone near the transfer station on Elm street about 9 o'clock, and at once arrested him on suspicion. When taken to the station house, however, the young man gave such a plausible story that the police came very near releasing him. But for the arrival of Wood at this moment with Van Buskirk, Walway might have convinced the officers of the truth of his story, so carefully had he prepared it.

Wood, believing that he had not been mistaken in thinking Walway the escaped lunatic, returned to the Elm street transfer station to look for Walway's companion while the other officers were questioning him. Scarcely had he reached the place where he had found Walway when he saw Van Buskirk standing on the sidewalk. He put him under arrest, the boy making no attempt to resist.

Van Buskirk's youth and size, together with the peculiar birthmark, resembling a pig's foot, on his cheek, made his captor practically certain that he had bagged the man he was looking for, and when closer examination revealed the fact that the index finger on the boy's right hand was missing doubt was no longer possible. The patrolman took him to the station house, where Walway was still arguing with the officers.

When Van Buskirk entered the room Walway began to laugh, and the police then knew that they had found the right man.

The men refused to give any account of their actions during the day. Van Buskirk, in particular, was extremely reticent, and confined his conversation to the admission that he was the person they were seeking. The young men were returned to the asylum this morning.

Police officers throughout Essex county are still mystified by the ease with which Van Buskirk and Walway slipped through the meshes of the drag-net laid for them.

Van Buskirk has been an inmate of the Danvers hospital for more than a year, entering it shortly after he was charged with the murder of Mrs. Catherine Gray, an aged Lawrence shopkeeper, in January, 1909. He is looked upon as extremely dangerous in spite of his youth.

Walway is six feet tall and very awkward in his appearance. He weighs 170 pounds. The police believe that the escape had been planned in every detail long ago.

The two made their way from the watch ward, in which they were confined, to an elevator in the rear of the building. They ran the car from the third floor down to the basement and made their exit from the building through the basement window, which was just large enough for them to squeeze through.

NEW CASES FALLING OFF

Backbone of Scarlet Fever Is Broken in Boston and Vicinity

Boston, May 4.—Twenty-six new cases of scarlet fever was the report to the Boston board of health Tuesday, the same as for Sunday and Monday. The fact that the number has shown no increase is looked upon as favorable by the officials of the board, who feel that the backbone of the disease is broken, so far as primary infection is concerned.

Reports from several of the nearby cities and towns indicate that the spread of the disease is checked.

Income Tax Killed by One Vote

Albany, May 4.—The assembly knocked out the income tax resolution by a vote of 75 to 67, 76 being necessary to adopt the resolution. Governor Hughes opposed the passing of the amendment, but President Taft had urged the legislature to adopt the measure.

Cyclone Sweeps Messina

Rome, May 4.—Alarming reports of a new disaster at Messina have reached here. Many persons have been killed and wounded by a cyclone.

HENRY A. WISE

Chagrined at Being Repeatedly Balked

RULING IN HEINZE'S FAVOR

District Attorney Fails to Connect Him With Big Copper Pools

New York, May 4.—Judge Hough plainly told United States District Attorney Wise that he had failed in a two days' effort to connect F. A. Heinze with the so-called pools in United Copper stock in 1907.

The United States district attorney therefore abandoned his attempt to put in the record evidence to this effect at the trial of Heinze, who is charged, as president of the Mercantile National bank, with misapplication of the bank's funds and over-certification of checks to the firm of his brother, Otto Heinze.

Balked at almost every turn, either by the rulings of the court or the failure of his witnesses to recall the facts sought, Wise showed his chagrin as he gave up the quizzing of Max H. Schultz, a member of Otto Heinze's firm.

BORDEN TO BUILD ANOTHER BIG MILL

Will Have Capacity of Over 2 Hundred Thousand Spindles

Fall River, Mass., May 4.—At a hearing before the board of aldermen to discuss a proposition to extend Durfee street, in this city, by means of a viaduct across land purchased with a year by M. C. D. Borden of New York, representatives of Borden opposed the project on the ground that it would interfere with plans for a large new mill.

The land lies near the locations of mills Nos. 6 and 7 of the Fall River Iron Works company plant. It was stated that a three-story brick mill building was to be erected. No further details were given. The mill is to produce print cloths for the American Printing company, as the seven existing mills of the Iron Works plant do. It is understood that a mill of over 100,000 spindles capacity is proposed.

GOTHAM BAKERS' STRIKE

It Leads to Rioting in Which One Man Is Stabbed and Many Injured

New York, May 4.—There was rioting Tuesday in the bakers' strike. One strike breaker was stabbed, several were maimed, and hundreds of loaves of bread were tossed from wagons into the street.

The strikers say that 6000 men are out and that nearly all the big bakeries, including those in the larger hotels, are seriously crippled. The employers on the other hand insist that they are only temporarily handicapped.

Many hotels are getting bread from neighboring cities. As yet the drivers have not joined the strike.

GETS THREE TO SEVEN YEARS

Katz Convicted of Larceny in Selling Heinze's Copper Securities

New York, May 4.—Charles Katz, who was found guilty of larceny by a jury in the supreme court, was sentenced to serve an indeterminate term of from three to seven years in the penitentiary. A certificate of reasonable doubt was granted and bail was fixed at \$55,000 pending an appeal.

Katz, with Donald Persch and others, was charged with selling \$110,000 worth of copper stock put up by the Widows Trust company by an agent of F. A. Heinze as security for a loan of \$50,000.

Clemens' Daughter His Sole Heir

Reading, Conn., May 4.—The will of Samuel L. Clemens (Mark Twain), filed for probate here, leaves the entire estate to the surviving daughter, Clara Langhorne Clemens, wife of Ossip Gabrilowitch. The amount of the estate is not given.

Going on Greenland Cruise

St. John's, May 4.—Arrangements for a cruise in Greenland waters during the coming summer are being made by Harry Whitney and Paul Halsey, wealthy American sportsmen.

GIRL SAYS SHE WAS A CAPTIVE

With Another She Was the Slave of a Hindoo

BOTH HELD FOR MONTHS

One Finally Breaks Away From Hypnotic Trance and Tells Story to New York Police, Who Raid House During Wild Oriental Séances and Arrest Man Who Was Able to "Communicate With the Dead"

New York, May 4.—Remarkable stories of hypnotism and thralldom told by two fine looking young women, who assert that for months a Hindoo has held them in his power by the exercise of his strange influence, are responsible for the arrest of Pierre A. Bernard, who, according to the girls, represents himself as a Swami from India and possessed of extraordinary powers of communicating with the dead and performing miraculous feats.

On the complaint of Miss Zella Hopp, 19 years old, who said she had been held in a hypnotic state by Bernard for some time, Police Captain Thompson raided the headquarters of Bernard in a house in Seventy-fourth street, where he found ten men and women in unconventional garments on a rug, going through peculiar incantations amid "mysterious Oriental surroundings."

The complainant, Miss Hopp, told the police that while Bernard's mind was entirely engrossed upon another subject she escaped from a hypnotic trance he had exercised over her for many months, during which she was his slave, and that she fled to them for protection and justice from a flat in West One Hundredth street in which he had installed her.

She declared also that Bernard had in the house in West Seventy-fourth street, under similar conditions, Miss Gerhardt Leo, also 19 years old, who had been in the power of Bernard for four months and could not escape from him even when left alone and with an hypnotic spell.

Miss Leo was found in the house by the police and she was taken to the police station with Bernard and the complainant. There, the police say, Miss Leo told a story similar to that of Miss Hopp. Bernard was placed in a cell and the young girls were allowed to go to the home of Mrs. Jennie Miller, in the Bronx.

Bernard, the girls say, represented himself as a Swami from India and declared he was called Oom by the Hindoo people. The girls say he showed to any one who cared to see it in his cellar a large white glass globe to which a wire was attached and declared that by turning on the light, which was not electric, but from an unseen force, he could get into communication with the countless millions of the dead.

The ten men and women who were found in the place were not molested by the police, but the strange rites through which they were invoking the appearance of astral bodies from the spirit land were broken up and all of them departed hastily.

Miss Hopp declared, the police say, that Bernard had about 150 men and women who visited the house alternately in classes of from ten to fifteen, and that each of them paid an initiation fee of \$100, which was supplemented by another fee of \$20, this being for a physical examination.

Miss Hopp told the police that on Aug. 1 of last year she went to the place in West Seventy-fourth street, which she believed to be a school of languages, and that she met Miss Leo there. She was told, she said, of the teaching of an Oriental philosophy and became engrossed in the subject.

Almost without knowing it, she declared, she became a member of the organization by progressive steps, until she finally was taken in one of the inner circles.

POISON IN SWOPE'S BODY

Doctor Tells of Finding of Strychnine and Cyanide

Kansas City, May 4.—Dr. Walter S. Haines, in the Dr. Hyde murder trial, told of finding traces of strychnine in the ejecta of Margaret Swope, in the brain and stomach of Colonel Thomas H. Swope and the liver and stomach of Chrisman Swope.

Cyanide was found by him and Dr. Vaughn in the stomach of Colonel Swope and on capsules which Hyde is alleged to have discarded on a street in Independence, he said.

Parsons Are Quitting Pulpits

Holbrook, Mass., May 4.—Because four of its ministers have recently resigned their pulpits to take up other lines of work, the Norfolk Association of Congregational Churches voted to ask for the appointment of an investigating committee by the state conference of Congregational churches.

Unusually Large Seal Catch

St. John's, May 4.—With the last of the Newfoundland sealing fleet set in port, the year's total catch of seals amounts to 320,000. This is an unusually large catch. The steamer Aurora, which was reported as missing, arrived with a catch of 11,000 seals.

FARES ARE GOING UP IN NEW ENGLAND

Quarter of a Cent a Mile Increase Announced For June First

Boston, May 4.—An increase of approximately 1/4 cent per mile in passenger rates is announced by the Boston and Albany road, to take effect on June 1. The fares from Boston to Worcester will be increased from 90 cents to \$1, and from Boston to Springfield from \$2 to \$2.25.

The reasons assigned by officials of the Boston and Albany for the increase of rates is the higher cost of operation and the stagnation of fresh sources of revenue. The cost of material, they assert, has risen 40 percent. Owing to the demands of organized labor, wages have been increased.

IS NOW A LAW

Famous "Bar and Bottle" Bill Is Signed by Governor Draper

Boston, May 4.—Governor Draper has signed the "bar and bottle" bill. As the licenses for this year have been granted, the act will not really become operative until next year.

The bill provides that nowhere in the commonwealth shall a fourth or fifth-class license be granted to be exercised upon the premises with a license of any of the first three classes, except that a licensed luncheon who has a license of the first three classes may likewise be granted a license of the fourth or fifth class for the purpose of supplying guests with liquor who have resorted to his inn for food or lodging.

SORORITY KNELL SOUNDED

Result of Initiation Ceremony Which Sent Girl to Sanitarium

Bridgeport, Conn., May 4.—Fraternalties and sororities at the Bridgeport high schools will be abolished by board of education, beginning with the next school year.

This is the substance of a resolution adopted by the board, following its investigation, as a committee of the whole, of the recent initiation of Miss Lorraine Clark, a member of the high school, into a sorority.

The investigation followed a complaint by the father of Miss Clark, who alleged that as a result of the initiation his daughter had become so ill that she had to be sent to a sanitarium.

CAR STRIKE AVERTED

Wage Problem in Bay State to Be Submitted to Arbitration

Springfield, Mass., May 4.—There will be no strike of the more than 1200 employees of the street railway companies controlled in central Massachusetts by the New England Investment and Security company, the holding company of the New York, New Haven and Hartford railroad.

At a conference between representatives of the trolley men and officials of the company it was agreed to submit the matter of increased wages to arbitration.

BOASTS OF HIS CRIME

Young Man Deliberately Strangles Wife to Death During a Quarrel

Ogdensburg, N. Y., May 4.—Rufus Woodmark, 25 years old; in a cell, boastfully told how he had deliberately strangled his wife to death during a quarrel in their home at Smith's Falls.

Woodmark had frequently threatened to kill his wife. Yesterday he put the threats into execution.

TOO MUCH GOLD MAIN TROUBLE

Report of Commission on Higher Cost of Living

GREAT WASTE OF INCOME

Multiple Forms of Extravagance, Both Public and Private, and Individual and Social Wastage—Tariffs, Trusts and Labor Unions Not Considered Active and Direct Cause of General Advance in Price of Necessities

Boston, May 4.—The report of the commission on the cost of living has been filed with the clerk of the house. The report will make a printed document of over 700 pages. The work of preparing this encyclopaedic report was begun, carried through and finished within eight weeks.

The commission finds that the primary cause of the world-wide advance of prices since 1897 has been the increase of the gold supply, which has reduced the purchasing power of money; and brought about a corresponding increase of values measured in money in all of the leading commercial states, and at least in the United States has served as the basis for a vast extension of credit.

The advance of prices in the United States has been accelerated greatly by the enormous waste of income through uneconomic armament and through multiple forms of extravagance, both public and private, and of wastage, both individual and social.

The increasing burden of disease, accident, crime and pauperism imposed upon society, and the loss through expenditure on a rising scale for luxuries and through wasteful domestic methods are potent factors contributing to the advance of the cost of living.

The advance of prices has been further promoted by a complexity of causes operating, on the side of supply, to reduce the volume and increase the expenses of production, and, on the side of demand, to extend and diversify the consumption of commodities.

The main factors in restricting supply and enhancing the cost of commodities have been the drain of population from the land, which has decreased the proportion of persons engaged in producing the food supply; the exhaustion of natural resources, which has resulted in increasing expenses of production and distribution, especially the latter.

The chief influence on the side of demand, which have worked parallel to the forces affecting supply, have been the growing concentration of population in great cities, which has increased the proportion of non-producing food consumers, the general advance of the standard of living, which has enlarged the requirements on the part of individual consumers of all classes, and the national habit of extravagance, which has further extended and diversified to an abnormal degree the demand for comforts and luxuries created by that advance.

With regard to the tariff, the trusts and the unions, which have been declared to be either primary or contributory causes of the increase of the cost of living, the commission finds that none of these factors can be regarded as a direct and active cause of the recent general advance of prices.

LARGE VERDICT UPHELD

New Haven Road Must Pay New York Boy \$13,750 For Loss of Leg

New York, May 4.—Thirteen thousand seven hundred and fifty dollars for the loss of a leg was awarded to Harold Schaffer, 15 years old, by the appellate division of the supreme court, affirming a decision of the lower court. It is the largest verdict ever upheld here for such injury.

Schaffer was struck by an iron bar protruding from a work car as he stood on a platform of the New York, New Haven and Hartford railway in the Bronx. As he had a commutation ticket in his pocket and was waiting for a train, the court held that he was to all intents a passenger.

LIVED IN A SHANTY

Queer Notion of Minneapolis' Richest Man, Who Has Just Died

Minneapolis, May 4.—Levi H. Stewart, said to be the richest man in Minneapolis, died last night. He held more real estate in Minneapolis than any other man and his estate is computed to be worth many millions.

For many years he lived the life of an eccentric bachelor in a small wooden shanty, situated in the heart of the city.

Great Glass Factory Destroyed

Ford City, Pa., May 4.—The factory of the Pittsburgh Plate Glass company here was burned. The loss is \$1,500,000. Out of a population of 5000 in the community, 3000 men are thrown out of employment.

Will Be World's Biggest Battleship

London, May 4.—At Barrow-in-Furness the keel was laid of the battleship Princess Royal, the largest warship of any navy in the world. She will be 26,000 tons displacement and 700 feet long.

LEGISLATORS TAKE A HAND

Machinery Set in Motion in Behalf of Milk Producers

Boston, May 4.—Action taken at the state house may end the milk war. The legislative committee on railroads voted unanimously to favorably report bills which will enable, without further legislation, the railroad commissioners to order roads to give farmers the same milk transportation rates enjoyed by contractors. The bills, which will be reported favorably, repeal the restrictive milk transportation law of 1906.

The action of the committee is regarded at the state house as a bombshell in the ranks of the contractors. The bills will undoubtedly be reported to the legislature today.

The agricultural members of the legislature, numbering more than fifty, at a meeting of the committee on agriculture at the state house, passed stirring resolutions, in which they took the side of the milk producers in the milk controversy, and appointed a committee of five to have the attorney general investigate the whole matter thoroughly. The farmers were encouraged to maintain their stand.

IS NOW MRS. OWEN

Wedding of Bryan's Daughter Not Interrupted by Former Husband

Lincoln, Neb., May 4.—Lieutenant Reginald Owen of the British Royal Engineers and Ruth Bryan Leavitt were married at the home of William J. Bryan by Rev. Harry F. Huntington. The ceremony was performed in the presence of relatives and a few close friends. Owen and his bride left this city last evening and will go direct to Jamaica, where Owen is stationed.

No details of the ceremony were made public. Threats of William H. Leavitt, the husband whom Ruth divorced, to interfere with the wedding, were believed to be responsible for the reluctance of the family and those in their confidence.

The Bryans did not believe that Leavitt would carry out his threat to come to Lincoln and endeavor to stop the wedding. They were prepared, however, for any emergency.

ROBBED OF JEWELS ON AN OCEAN LINER

Countess Misses \$40,000 Worth When She Gets Home

London, May 4.—It has become known here that jewels valued at more than \$40,000 were stolen from Countess Szechenyi, who was Miss Gladys Vanderbilt, while on her way to Europe from New York.

It is said the jewels were stolen on the liner on which the countess left New York. She did not miss the jewels until after the steamer had docked and she had arrived in Budapest.

The thief, it is said, secured a position in the catering department of the liner on which the countess and the count returned from America, apely that he might have opportunity to steal the gems. Arrests are imminent, according to Scotland Yard authorities.

FRANCE HAS WAR BALLOON

Machine Built in Secret Expected to Travel Fifty Miles an Hour

Paris, May 4.—The surprising announcement is made that there has been constructed under the direction of the war department and with strict secrecy, a dirigible balloon of the semi-rigid type capable of a speed of nearly fifty miles an hour, and that the machine will be ready for participation in the approaching summer army maneuvers.

The new military craft has been named "The Frigate." It measures 112,000 cubic feet and has two cars within which are contained motors designed to develop 240 horsepower.

GUILTY IN REBATE CASES

Court of Appeals Says Standard Oil Must Pay Fine of \$20,000

New York, May 4.—The United States circuit court of appeals handed down a decision affirming the decision of the United States district court of Buffalo, which found the Standard Oil company guilty of accepting rebates, and which fined it \$20,000.

The Standard Oil was indicted on forty counts in Buffalo, each count charging that it accepted rebates in shipping oil from Olean, N. Y., to Rutland, Vt., and from Olean to Deliques Falls, Vt.

A Remarkable Old Lady

East Longmeadow, Mass., May 4.—Miss Mary S. Cooley, whose father and grandfather were both soldiers in the American Revolution, yesterday observed her 94th birthday. She has never been in a steam or trolley car, not even in a stage coach. She has either always walked or ridden behind oxen.

THE PASSING OF CO-EDUCATION

Tufts college trustees have voted that, beginning with the college year in the fall, a separate institution will be maintained for the women students under the name of Jackson college.

In his announcement, President Hamilton, of Tufts said: "Co-education at Tufts did not prove a success. It seemed to have a distinct tendency to impede the growth of the college. After a great deal of informal discussion at the meeting of the trustees in October, a committee was appointed to take the matter under advisement. The committee, after long and careful consideration and investigation, unanimously expressed itself in favor of the change. It may be interesting to know that the committee was originally made up of three men who were in favor of co-education and two which were opposed to it."

The committee gives many reasons for the change; the principal ones being: "In a few studies, the delicacy of treating fully a subject where both men and women were present in the class was very apparent. The invariably different viewpoint, (due to the different sex), from which men and women approached nearly all of the subjects, and the difficulty, in the hour of recitation, of properly presenting the subject to the comprehension of both sexes. A natural diffidence on the part of both sexes to enter, during the recitation, into any argument with the other sex over any subject under consideration. The tendency of women to select courses in which from the nature of the subject and their natural aptitude and ability they will secure high marks."

The committee said that what was done must be so done that the women would be able to say that they had equal opportunity with the men. It did not seem to the committee that this would be accomplished by opening a department for women, but that to secure success a separate institution exclusively for women, with a suitable appropriate name and the right and power to grant separate degrees should be established. The women see clearly that they can have certain advantages and opportunities under the new arrangement that were impossible before. Certain of the courses can be gone into much more thoroughly. The administration of the scientific courses, for example, have been shaped very largely by the needs of engineering students who were in the majority in most of the scientific courses. It will be possible now to give the women courses much more suited to their special needs, and to arrange their college life on its social and personal sides much more satisfactorily.

More than a score of colleges are working along similar lines with separate institutions for the young men and young women. The leading secondary schools of the country, of which Phillips Exeter Academy in this county is a notable example, are for only one sex, and the public high schools, especially in manual training classes, are doing the same to some extent. Private schools for boys or girls, but not for both, are getting numerous, and their patronage proves that they fill a need.

Co-education is passing out of existence.

AMONG OUR EXCHANGES

President Lowell and Football. There can be no reasonable disagreement with the views of the president of Harvard on athletics in general, as related to the proper purpose of a college, and on football in particular because of certain obvious considerations all its own. The red blood versus mollycoddle theory undoubtedly involves an element of normal human vanity. There are no applauding multitudes to warm the heart of the ranking classman, no newspaper headlines exploit an undergraduate conquest of the classics.

It happens occasionally that the man who is strong on track or field is also strong in the class room, but to carry the college colors in athletics is doubtless often a prevailing ambition. Where there is physical incapacity for its attainment, heartaches are correspondingly induced. Thus has developed what President Lowell justly declares to be a "distortion of values."

The case against football is even more clear. Apart from consideration of the risks, which under the practice of some years past remove the game from proper classification as manly sport, so-called college football is for the few. It is an exotic, little related to a sound theory of college athletics. Members of the football team, President Lowell reminds us "are engaged in a sport which no one else plays for fun." The teams become "trained bands of gladiators," detached from all reasonable ideals of a college curriculum, either physical or intellectual, and not representing a "culmination of a general sport pursued by large bodies of undergraduates." If more college heads could arrive at such views the controversy would be stripped of much sophistry.—Providence Journal.

BURIAL AT MOUNT AUBURN

Body of Rear Admiral Philip Hichborn in Family Lot

Watertown, Mass., May 4.—The body of Rear Admiral Philip Hichborn, retired constructor in chief of the U. S. navy, was placed in the family lot at Mt. Auburn cemetery yesterday. As funeral services were held at Washington Monday there was no naval ceremony here.

The body, accompanied by Mrs. Hichborn, Philip Hichborn, Jr., and Mr. Pearsall of Washington, his in law, arrived in Boston yesterday. It was taken directly to the chapel at the cemetery and was buried in the family lot. Mrs. Hichborn, Philip Hichborn, Jr. Mr. Pearsall, Henry Hichborn of Revere and Mrs. Fanny Hopkins of Somerville, brother and sister of the late rear admiral, accompanied the body to the grave. Rev. Philip W. Sprague, rector of St. John's Episcopal church of Charlestown, of which Rear Admiral Hichborn and his parents had always been parishioners read the service.

MASTERS, MATES AND PILOTS

The May meeting of Piscataqua Harbor, No. 83, Masters, Mates and Pilots, was largely attended at the monthly gathering, last evening.

Various papers were read and correspondence from the national officers relating to projects concerning the improvements in our harbor.

These gave strong proofs that this order is making itself prominent among our congressmen and advocates of harbor work in New England, and much encouragement that the activity of this local organization is doing good work for Portsmouth.

The members, each and all, are awake to every opportunity to place our harbor where it can rightfully claim preeminence for its deepest water and superior advantages.

PEOPLE'S OPINIONS

How About the Old Home Postal Cards?

The postal cards issued and being mailed to the absent sons and daughters, are correct in the conception, but isn't it a bit harsh, as we read the four lines of poetry, to imply the act of leaving the old homestead, as one of "shame," in the laudable and necessitated search for riches and fame. A more tender appeal could have been put into verse. CRITIC.

GREENLAND

The funeral of Mrs. Sarah A. Haines, widow of Joseph W. Haines, was held at her home at two o'clock this (Wednesday) afternoon. Rev. Dr. Edward Roble conducted the services. She was laid to rest in Greenland cemetery. The funeral director was H. W. Nickerson.

ST. JOHN'S CHURCH

Ascension Day, Thursday, May 5th, 1910.

8.00 a. m., Holy communion.
10.30 a. m., Morning prayer; holy communion.
5.00 p. m., Evening prayer; address.

These services will be held in the chapel.

MAINE SOCIALIST NOMINATIONS

The first of the political conventions in Maine was held Tuesday when the Socialists, 25 of whom met in convention, nominated Robert V. Hunter of Freeport for governor and S. E. Brayhall of Camden for State Auditor. James Hill of Warren was chairman.

As Cartoonist Hart Pictures the Appointment of Gov. C. E. Hughes

While no one expects some 90,000,000 people to all agree on what a president of the United States does or does not do, the appointment of Governor Hughes of New York to the supreme court by President Taft met with the approval of people who look upon the Empire State's chief executive as a student of law. Artist Hart of the Philadelphia Press has given the public a cartoon that pictures the sentiment of many people.

PEARY IS WARMLY GREETED IN LONDON

London, May 4.—London is making much of Commander Robert E. Peary. Interest in his visit is not confined to scientific circles, but is general. Tuesday a great crowd in the streets adjacent to the home of the Royal Society, where he was entertained at luncheon, awaited the arrival of the American explorer and gave him a hearty reception.

Entering the clubhouse he was received with a noisy demonstration of welcome by the distinguished party of scientists and explorers. When a few moments later Capt. Robert Bartlett, commander of the Arctic steamer Roosevelt, arrived the applause was renewed.

Lord Halsbury, president of the club, presided with Commander Peary seated at his right. Capt. Scott, the leader of the British Antarctic expedition, was at the head of the lower table, with Capt. Bartlett at the place

of honor.

Sir George Nares, one of the oldest surviving Arctic explorers, was among the notable guests, others being Lord Strathearn, high commissioner for Canada; Lord Roberts, Sir George Reid, Sir Arthur Conan Doyle, Sir Hiram Maxim, Dr. Scott Keltie, secretary of the Royal Geographical Society, many explorers, travelers and naval officers. The American embassy was represented by Secretary William Phillips and Commander Edward Simpson, naval attaché, American Consul-General Griffiths was also present.

Toasts to King Edward, President Taft and Commander Peary were drunk. "The speakers, in addition to Lord Halsbury and Commander Peary, included Maj. Leonard Darwin, president of the Royal Geographical Society; Sir Arthur Conan Doyle and Sir Herbert Von Herkomer, the artist.

NEW REGULATIONS FOR MOTOR BOATS

It is expected that some relief from the onerous regulations of the federal government for the owners of operators of small boats along the coast of New England in the very near future as the bill to that end introduced by Senator Frye sometime ago in the senate, has been favorably reported and the house committee on merchant marine is laboring with almost identical measure according to information received in this city. It will probably become law at this session of congress as there is said to be little opposition in the senate or house.

There has been a long uphill struggle by small boat owners for this piece of legislation, which will not require motor boats to display lights in impossible positions or to carry life saving bells. The measure will

also be a boon to the owners of steamboats under 40 feet in length. According to the present laws it is impossible for the owners of small steamboats to operate them on a trip of 25 miles without having the services of a licensed pilot—unless they are willing to take the risk of violating the federal law.

Under the proposed laws or new provisions the motor boats of less than 25 feet in length will be required to carry a white light aft to show all around the horizon and a combined lantern in the fore part of the boat and lower than the white light aft showing green to starboard and red to port, so fixed as to throw the light from right ahead to two points abaft the beam on their respective sides. The larger more than 25 feet in length will be required to show a bright white light in the fore part of the part of the boat, as near the stem as practicable, so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, and so fixed as to throw the light 10 points on each side of the craft. The glass or lens must be 19 square inches for boats between 25 and 40 feet in length and 31 square inches for boats more than 40 feet long.

On the starboard side there will be required a green light to shine over an arc of 10 points of the compass and on the port side a red light of a similar capacity. For boats between 25 and 40 feet the lenses of these lights must be 16 inches square and 25 inches square for boats over 40 feet in length.

THUNDER AND LIGHTNING

The first real lightning and thunder storm of the season broke shortly after eight o'clock Tuesday evening, and for a time it was a very vivid display of electrical forces. The storm was central over this city and while no damage was reported the bolts must have struck close at hand.

At the Jones Brewing company, the lightning entered the wires and burned out all of the fuses leaving the big plant in darkness until repairs were made. There was no damage other than the burning out of the fuses.

A sharp shower accompanied the storm, and while it cleared away the fog there was no change in the weather.

DROWNED AT SEABROOK

Experienced Fisherman Lost His Life on Sunday

Charles B. Walton, aged 49 years, a Seabrook fisherman, lost his life early Sunday morning by drowning at the Hampton river bar in Seabrook. Mr. Walton went out early to set his lobster pots, and shortly afterwards his boat, which was a power craft, was found adrift. It was supposed that when he came in contact with what is called the "chop" tide, where the ebb meets the inflow of the sea, his boat became overturned. He had been a respected citizen of that town for many years, and is survived by three married daughters, two of whom reside in Haverhill, Mass., and the other in Seabrook, with whom he made his home.

The body has not yet been recovered, and parties have been dragging the river for it since the accident was reported.

Mr. Walton each summer lived in a small house near the Hampton river bridge, from which he fished. Besides his daughters he is survived by a mother two sisters and two brothers, all of Seabrook.

ADVICE TO MOTHERS—Mrs. Winslow's Soothing Syrup should always be used for Children's Cough, Croup, Whooping Cough, Sore Throat, Hoarseness, and all the ailments of the Throat, Lungs and Wind Cuts, and is the best remedy for Diarrhoea. Twenty-five cents a bottle.

Farmers report that while the fruit trees and the grass is from two to three weeks ahead of last year, the crops are not any better off owing to the cold weather of the past week.

Our Customers Are Fashion's Friends

We have several lots of boys' suits especially adapted for school wear. The fabrics are extra strong, the colorings are the kind that "don't show the dirt" and they have two pairs of knickerbocker trousers.

ONE MOMENT PLEASE!

Electric Sign advertising is no longer an experiment. The most successful firms of world-wide reputation as well as the stores with whom we have done business give us facts that prove the advertising worth of Electric Signs to be far in excess of any method of advertising that has ever been devised for the amount expended.

Look for the most enterprising city of today and you will find one that uses Electric Signs on all available locations and where merchants appreciate the advertising value and use light. I am making and selling the best signs that can be produced, not the cheapest, but signs that will stand up and give service for years. Recent inventions have reduced the cost and also the cost of maintaining. Public spirit and civic pride demand well lighted business sections in our cities, why not do your part with a well lighted, artistic Electric Sign and increase your business as well.

I charge nothing for estimates or sketches and am always willing to explain details and serve your interests. Respectfully yours.

NO BREAK IN THE RANKS OF STRIKERS

Milk Supply Still Being Withheld from Contractors--Milk Being Stored in This State.

The shipment of milk from this section into Boston was about the same as the past two days and if anything a few cans less were shipped Tuesday. The farmers are just as confident that they have the upper hand, despite the showing made by the contractors in keeping up the supply into Boston. This they claim is all storage milk and it will end in a day or two if the Board of Health does not stop it sooner.

There is some shipment through by rail from way down in Maine and up near the Canadian border, but none from this immediate vicinity. The milk car from Derwick, which goes in over the western division came through here last night and there were 150 cans aboard, out of the usual 1200 cans.

In Boston the retail prices were dropped yesterday to the summer schedule, but there was no movement in this city to cut the winter price

of seven cents, although the farmers admit that they would be satisfied with four cents a quart to the wholesalers in Boston.

There has been no break in the ranks of the farmers here and they are all busy separating their milk for cream, which is finding a ready market.

In Boston the legislature has taken up the matter and a committee of five have been appointed to make an investigation of the milk strike. Compulsory arbitration is being talked of for while the producers are standing willing to submit their side of the case the contractors refuse to have any part in it.

Stanley H. Abbott, president of the Milk Producers' association, requested Governor Draper, Tuesday, to ask the State Board of Health to make an examination of the milk that is being shipped to Boston from New York,

Connecticut, Rhode Island, New Hampshire, Vermont and Maine for the purpose of breaking the strike of the New England producers who are asking a winter price for their summer product.

"I do not charge that this milk is bad," declared Mr. Abbott, "but the people should be safeguarded. The State Board of Health has the right to call in the Federal authorities, under the National Food and Drug law, if they find that the milk that is being imported into Massachusetts is diseased."

Harry G. Dean, auditor of the producers' organization, of Grafton, N. H., who came to Boston Tuesday, made this declaration:

"One Boston contractor (Mr. Dean mentioned the name) has been storing milk in Grafton for a week. Monday there were 1,500 cans there and 300 of the cans were shipped to Boston."

Milk Stored at 22 Stations.

"The milk may be all right in the cans as long as they are sealed, but just as soon as the air reaches the milk it will be unfit for human food. The contractors may pasteurize it, but the dead matter will remain in it still."

It was declared that the same Boston contractors had milk stored at twenty-two stations throughout New England ready for shipment from time to time to that city.

EVENTS OF ELIOT

Middle of Town to Get the State Road Work

Assessors Find Less Live Stock Than a Year Ago

Eliot, Me., May 4: The selectmen and road commissioners have decided to have this year's state road work done on the section from Kennard's corner northwesterly. It will be aligned, graded, given improved drainage, and new surfaced. The amount available is \$800 and the work will be carried out as far as the money will take it along the new road.

The assessors have not completed booking the town valuations, but it is apparent that there is a decrease of live stock. This is due to the scarcity of hay last fall. Less than the usual amount of stock was wintered.

The grand dramatic club members and a few friends, twenty in all, drove to Rollinsford on Tuesday night and the club's drama, "A Noble Outcast," was presented to a goodly audience at Rollinsford Grange hall. They had been waiting ever since February for suitable traveling and weather for this trip and when they did go they ran into a thunder shower.

There will be a circle supper at the Congregational vestry this evening. Albert W. Nowell was assigned to the first traverse jury at the opening of the May term of York county superior court on Tuesday at Alfred.

RETURN OF SONS AND DAUGHTERS

Executive Committee and the New Special Postal Card

At the meeting of the enlarged central committee on the return of the sons and daughters of Portsmouth Tuesday evening, an executive committee was appointed to consist of Chairman Wallace Hackett, Secretary E. Percy Stoddard, Joseph P. Conner, Fred E. Hasty and William J. Cater.

Special postal card invitations have been issued and placed on sale. The back of the cards are local souvenir views. On the face, in the space at the left, reserved for correspondence, is printed:

COME HOME JULY 4, 1910!

"Come back to your mother, Ye children, for shame, Who have wandered like truants For riches and fame."

Portsmouth, New Hampshire
"The old town by the sea" will bid her absent sons and daughters, and former residents, a hearty welcome

FROM EXETER

Another Portsmouth Case on Trial

Annual May Fair of the Unitarians

Academy Baseball Team Goes to Rhode Island

Exeter, May 4.—The suit of Donald A. Randall of Portsmouth against the Appleton Land and Building company was begun Tuesday afternoon in superior court. The action is to recover for labor and material furnished by the plaintiff, who is a painter and paper hanger in Portsmouth, during the time from June 1, 1905, to July 10 of the same year. The labor was on the Appleton house at the Isles of Shoals. The company paid Mr. Randall a sum of \$404 and some cents at one time, but he alleges that there was due him the sum of \$166 more.

Jailer Wilbur Shaw of the Portsmouth jail was in town Tuesday with a prisoner who was to be tried in superior court today, but the judge was not able to attend to the case, and both returned to Portsmouth. The trial will be held later.

The fifty-sixth annual May fair by the Unitarian society was opened at eleven o'clock Tuesday, and during the hours of its continuance it was attended by many people. Fancy articles and candy booths were presided over by the young ladies, and the principal attraction in the afternoon was the dancing of the children under the direction of Miss Gladys Seavey of Greenland. The dances in which the children displayed a variety of intricate and novel movements were: Dutch peasants' dance by Elizabeth Wentworth of Greenland, and Isabel McWilliams of Portsmouth; shoemakers' and old Danish folks dance by Margaret Peavey of Kittery and Celestine Fogg of Newington; sailors' hornpipe, Dorothea Fogg of Newington, and Gwendolyn O'Brien of Portsmouth; Swedish singers' dance, "The First of May," by sixteen young girls from Exeter. Dinner was served from 12 to 2 o'clock. The confectionery booths were in charge of Mrs. Edward Green, Mrs. James A. Tutts, and Mrs. Wendall B. Folsom; the china booth by Mrs. George Hilliard; the apron booth by Mrs. George Carlisle, and the Dutch booth by Mrs. Purinton. In the evening there was general dancing, the music being furnished by the Xenian orchestra which rendered a pleasing concert during the evening. Supper was served from 6 to 8 o'clock. The affair was a most enjoyable so-

cial as well as a success financially.

Exeter Academy will this afternoon take the field against Brown university on Andrews' field, at Providence, R. I. The team and substitutes, numbering twelve, besides the manager, W. S. Bacon, and official scorer, J. A. Henderson, left Boston at 10.50 a. m., and thence to Providence. It has been several years since the Brown nine has been played by the New Hampshire preparatory school, and Mr. Walsh and Captain Wingate are desirous of giving the college boys a hard contest.

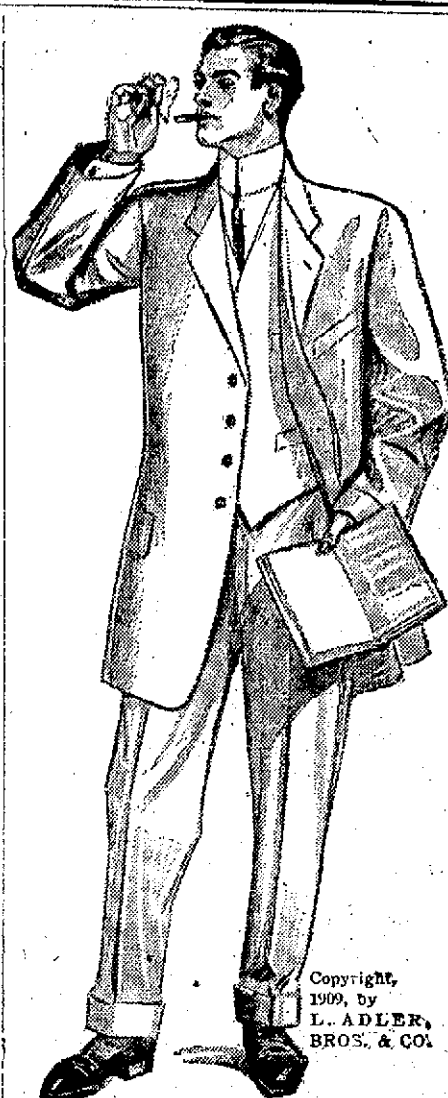

At the meeting of the Daughters of the American Revolution the following officers were chosen: Regent, Mrs. Minnie Burlingame; vice regent, Mrs. Mary E. Chase; secretary, Miss Emily Tapley; treasurer, Mrs. Bessie S. Wentworth; registrar, Miss Lizzie G. Rollins; historian, Miss Maudie L. Jewell; board of management, Mrs. Kate M. Hatch, Mrs. Alice Chesley, Mrs. Dora E. Wetherell, Miss Emily Tapley and Mrs. Alice M. Batchelder.

Chin Han, a "beaten chinee," who has conducted a laundry here on Water street for the past few years, is to close out his business in the scholastic town and remove his industry to some other field. But Chin did not make these plans of his own accord, and a tale overhangs his intentions. It was decided in police court that he was a bad Chinaman, and Judge Shute who heard his case, directed him to move his business firm to some other locality within two weeks from date. There were various charges hung against Chin's name, foremost, however, he was charged with lewd and lascivious acts, and that he was also involved in an altercation at the Boston and Maine railroad station last evening. His sentence was, to be held under \$500 bonds for the grand jury, or as decided by the judge, to leave town. The judge told Chin that he would have to be sent to jail till October to wait trial at the "big court," and "then they will probably send you up for six months," said the judge. "But if you will leave town on or before May 16 you will hear nothing more of it. Will you do it?" "I will," said Chin; and thus the passing of Chin Han's laundry on Water street will take place soon. Chin is right from China and wears all the regalia of the Orient.

Retire Crummett, aged fifty-six years, of this town, died at the Rockingham county farm at Brentwood, and the funeral services were held by Rev. H. F. Quimby, pastor of the Methodist church here. Mr. Crummett was a citizen here for many years, where he was well known, being engaged as laborer at various places.

Imitating the Music of a Cascade.

Certain tribes on the Amazon have been fascinated by the music of the waterfall. Musical instruments were found in use among them consisting of a complicated mechanism by which water was poured from one bowl into another, in imitation of the cascade, and then returned by the receiving bowl into the vessel which had poured it, so that by a repetition of this mechanism a constant murmur of a cascade could be kept up so long as the audience desired or the player was able to perform it.

When Cooking is a Pleasure.

When you can go into the kitchen, light the gas and in five minutes have everything hotting, then it's a pleasure to cook. No dirt, smoke or soot; no heat, except at the burner, which as there is practically no radiation, amounts to nothing.

To tell the truth, lady, we think any woman is foolish to swelter over a hot cook stove. And if you only knew how little it costs to do all your work with gas, we don't believe you'd put up without it another day. Why not come in and let us tell you about it.

Summer Places Wanted

MORE and more each year summer sojourners from all over the country are seeking pleasant spots in New England where they can buy or hire houses, farms, cottages or camps, and many others are patronizing well managed hotels and pleasantly located boarding places.

Each season thousands of people turn to the advertising columns of the Boston Evening Transcript, where so many announcements of summer places are published.

If you desire to reach the well to do people and attract them to your place, insert a well worded advertisement in the Boston Evening Transcript.

Full information, rates, sample copies and advice cheerfully given on request.

TO INCREASE PASSENGER RATES EAST OF MISSISSIPPI

Boston, May 4.—A movement to in-crease passenger rates on many of the railroads between Mississippi river and the Atlantic seaboard will be- come practically general in New Eng- land by June 1. Following the recent announcement of the advance by the New York, New Haven and Hartford railroad, the Boston and Maine and Boston and Albany managements to- day stated that they had decided to raise rates because of the increased cost of operation, due largely to the higher wages insisted upon by the employees.

The advance of the Boston and Al- bany division of the New York Cen- tral system will average about 12 per cent., and will become effective June 1. It is proposed to increase the fares from Boston to Worcester from 90 cents to \$1, from Boston to Springfield \$2 to \$2.25, and from Boston to Albany from \$4.05 to \$4.35. The Boston and Maine system is also preparing schedules calling for a boost in fares. On the Fitchburg di- vision the long distance fares will go up on June 1 from 10 to 12 per cent. If the Interstate commerce commis- sion acquiesces. Similar advances will be made on the other divisions, and local fares will also be affected.

A number of citizens' associations in Boston and vicinity, it is under- stood, have decided to make a pro-

test against an increase in the cost of commutation tickets, especially on the New Haven system, which serves thousands of suburbanites daily.

The raise in rates on the Boston & Albany railroad was explained by the company today as "substantially a restoration to the old basis which existed prior to the reduction in 1906." In 1906 there was a voluntary reduc- tion in passenger fares from a basis of 2 1/2 cents a mile to 2 cents a mile.

El Paso, Tex., May 4.—With the opening of the Rock Island from Memphis to Tucumcari, N. M., May 10, it is officially announced freight rates over the road from New York to El Paso will be reduced 50 per cent. It is planned to bring the freight to Texas City by steamer.

Washington, May 4.—The New York, New Haven & Hartford rail- road has filed with the interstate commerce commission supplemental tariffs showing large increases in the prices of 60-trip commutation tickets effective after June 1.

As an example, the rate from New York to Greenwich, Ct., has been in- creased from \$8.50 to \$10.20; to Bridgeport, from \$12.75 to \$15.80; to New Haven, from \$16 to \$22. Other in- creases are about five cents per tick- et to nearly all stations.

TO DISCLOSE ALL IN WHITE SLAVE TRAFFIC

New York, May 4.—Henry Leven- son, the most important prisoner taken in Asst. Dist. Atty. James B. Reynolds' white slave raid, pleaded guilty in general session Tuesday to indict- ment against him. Levenson not only pleaded guilty, but promised to go before the grand jury and expose the true conditions of white slavery on the East Side as it has never been exposed, showing its true connection with politics.

Levenson was indicted for the sale of two young girls to agents of Rey- nolds. He was indicted Monday for a felony, and today was arraigned be- fore a felony, and he was arraigned be- fore a felony. His counsel, Edward Carpel, appeared with him an created a sensation by announcing that his client was not only ready to plead guilty to the indictment, but would give the district attorney every aid in his power in prosecuting his white slave crusade on the East Side.

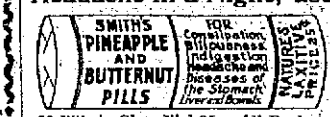

Are You Bilious?

Biliousness means that your liver is sick and out of order. You are cross or cranky, can't eat, have a bad, nasty tasting mouth, and are sick all over. To neglect bilious- ness will result in congestion, loss of appetite, torpidity and bad feelings. Restore the liver to health by using Smith's Pineapple and Butternut Pills; which cure biliousness in one night, give your liver healthy action, assist digestion, clean up your tired and coated tongue, and give new life and energy to tired nerves.

Mr. JAMES B. REYNOLDS, of Old Myrtle, Conn., writes: "Please send me a trial of Smith's Pineapple and Butternut Pills. These I have had all right, and I like them very much for biliousness and dyspepsia, which I have been troubled with."

These little vegetable pills will accom- plish more in a few days toward making you feel better than a bushel of nerve pills. They cleanse and invigorate the blood and make it rich and red. They restore the liver and stomach to normal activity. Physicians use and recommend. They form no habit. You should always keep them on hand. These Little Vegetable Pills will ward off many ills.

found in which Belle Moore and An- derson are charged separately and jointly with selling Alice Milton and Belle Wood to Miller for \$120. The indictments against Levenson charge him with selling Ida Greenberg and Bessie Ehrlich for \$40. The penalty for the crime of which they are ac- cused is imprisonment not exceeding five years and a fine not exceeding \$1000.

"I will fix the ball in each case in the sum of \$25,000, subject to motion to be made upon presentation of facts," said Justice Crane. The pris- oners were taken back to the Tomba.

CLARENCE B. BURLEIGH DEAD

Leader in Maine Affairs, Passes Away
at Augusta.

Augusta, Me., May 4.—Clarence B. Burleigh, aged forty-five, son of Con- gressman E. C. Burleigh, a newspaper proprietor and long prominent in po- litical and civic affairs, died suddenly Monday night at his home, following an attack of acute indigestion of only three hours.

For many years he was state prin- ter, was long a chairman of the re- publican city committee, president of the Augusta city hospital association, member of the Maine press associa- tion and identified with various oth- er literary and business associations. He is the author of several books for boys. He leaves a wife, two sons, one brother and four sisters.

COOPERATION

We think we are justified in asking the cooperation of the public to the extent of holding toward us a friend- ly spirit in considering our problems and dealing with personal and mu- nicipal questions which affect us.

The cooperation we desire is not the kind that would perform our work for us or lift our responsibilities from our shoulders. Rather it is the same appreciation and encouragement which is accorded any worthy com- mercial enterprise whose labor and unobtrusive help to make the city

thrives. The city can not get along with- out utilities, nor can the utilities ex- ist without the city. They are mu- tually dependent. An electric com- pany that does not do its utmost to- wards developing its city is working against its own best interests; like- wise, a community which fails to co- operate with an efficient public ser- vice company sacrifices its own wel- fare.

On this point the Railroad Com- mission of Wisconsin, an absolutely disinterested body, has said: "The re- lations between the cities and the utilities operating therein should be harmonious. There must be coopera- tion rather than agitation."

No one, it would seem, has anything to gain by the financial failure of pub- lic corporations which are conducted and operated under ordinary or nor- mal conditions.

"Losses to such plants are, in the end, likely to result in both public and private injuries. It usually means poorer or depreciated service, which of itself is a very important item. Even if it should enable cities to acquire title to their utility plants at comparatively low cost, such acqui- sition is not likely to prove a popular one in the long run."

TALKING PICTURES AT MUSIC HALL

In spite of the rain a large audience attended the talking pictures at Music Hall last evening. Some very good vaudeville acts were shown, including Stello Mayhew, Cameron and Gordon, Charles Smith and others.

The management has secured the motion pictures of ex-President Roose- velt in Africa for the last three days in addition to the regular vaudeville acts and motion pictures.

The graduation class of the high school are perfecting their plans for the graduation exercises which they intend shall eclipse that of former classes.

HOW TO CURE PIMPLES

It is truly remarkable how Cadum the new skin remedy, causes pim- ples to disappear. The very worst cases are frequently cured in a week, and often in even less time. Cadum causes pimples to dry up and fall off, leaving the skin as soft and smooth as a baby's. Pimples are a disease of the skin, and are not caused by bad blood, as many people suppose. Cadum cures these annoying and disfig- uring facial blemishes because it can be applied direct to the trouble, and its soothing, antiseptic and healing pow- ers stop the itching at once. Cadum is just as efficacious in other skin troubles, such as blackheads, blotches, rash, eruptions, acne, eczema, etc. 10c and 25c all druggists.

SHE WHO SNORES.

Russian Jewelry a Craze of the Moment.

GAYETY IN SUMMER HOSIERY.

Scarlet Stockings Worn With Black Patent Leather Pumps—How to Bring Last Season's Skirts Up to Date.

Dear Eliza—Dorothy D. has just left after a charming visit of two weeks. She is a perfect dear, and I did enjoy her frank enthusiasm of pleasure at the sight of New York. The shops she thought wonderful, and as for the gal- leries of pictures along Fifth avenue—well, we spent hours browsing among them. Everything was lovely until un- fortunately, sweet Dorothy, who sleep- overtook Dorothy, for then she snored, not gently and comfortably, but with loud, snoring grunts that might have been heard all over the house.

Now, you know, our apartment is not sound proof. Did I speak to her about it? I should think not. You may accuse a woman of any crime in the lexicon rather than tell her she snores. What if I did let her snore all night from Dorothy's heavy breathing? No, dear, it is better to keep your mis- ery to yourself if you would be popu- lar with your friends.

Now I'm going to make a systematic endeavor to find out if I snore, and I'm going to a specialist—there are special- ists for every ill and wear ill in exist- ence—and have my snore, if I've got it, eradicated.

Most of us go on the principle that what we don't know does not hurt us; therefore we prefer to eliminate unpleasant facts. This is all very well if we have only ourselves to consult, but when we use the comfort of our fellow beings it's another story. But about this snoring. It is said to come with increasing years, and be-

THE CHANTICLEER PARASOL.

When I reckon that is the reason of woman's disinclination to chide it but it is no excuse why one should not attempt to break oneself of the habit. Sometimes snoring is caused by sleeping on the back; again, the head may be too low or the neck is thrown too far back on the pillow. But most often snoring is a symptom of cold. And for this spraying the nose and throat before retiring has been known to help inveterate snorers. Sometimes one snores from poor circulation, and a heart tonic will cure.

I do think, though, that if a child makes this hideous noise every night it should be taken to a doctor. It is not natural, and generally the cause is enlarged tonsils or a stoppage of the nasal passages by adenoids and can be overcome by treatment or an operation.

Well, my advice to the snorer is, cur your snore if you can. If you cannot go slow on going as a delegate in a woman's convention or accepting in- vitations to a house party if you would not be a nuisance and roundly re- viled.

Russian Jewelry Now the Rage.

But I am sure you are more interest- ed in the present craze for Russian jewelry than in my tale of woe about Dorothy and her snore. You have such lovely Russian enamel jewelry that it would be sad if you missed the opportunity of wearing it just now, when it is such a craze. One sees this enamel work everywhere, and the popular novelty of the hour in table ornaments takes the form of toys. Small trolley cars and wheelbarrows are made of this delicate enamel and laden with quartz from the Ural moun- tains, and miniature flower pots in- tended for bonbons or stamps are both pretty and uncommon. More elaborate are the parasol handles made of the Russian enamels, and there are clip- pette cases of every possible shade finished either with real or imitation settings of diamonds, emeralds and turquoises. It is less often, however, than the chandelier parasol handle which I have sketched for you, that you may see to what absurd lengths the rooster craze has gone here in New York.

And, speaking of loud effects, don't wear black stockings with your low shoes this summer if you want to be right in the swim, for smart women are going to wear hosiery that fairly screams. Just think of it—scarlet stockings with black patent leather pumps to be worn on the street, and old rose for a very mild compromise! Of course it is only the woman who

THE ELEVATOR GIRL HAS COME TO STAY.

And now behold the elevator girl! We are a little bit out of patience with the elevator boy, the lad who sends us past our doors to the very roof of the building and whistles through his teeth with a bored expression when we speak our minds. And then, too, he thrusts his arm through the grat- ings and slams doors at the peril of his life, which is not soothing to the nerves to watch. Altogether the gum chewing, wild west novel reading ele- vator tyrant is the reason why the gentler sex is having a try at his trade.

A Chicago woman's club is respon- sible for the feminine "button", whose picture is here given. She says "Yes, madam," and "No, madam." Instead of grunting for an answer and "pops" at the doors indicated with a sweet smile and no jerk, which is a distinct and marvelous improvement. Chicago is not the only city to have elevator girls. New York has several, one in the Waldorf-Astoria, by the way, and the

Ways of Smart Skirts. You ask me how to bring your "left- over" skirts into the season's lines. To console you, my dear, let me say that there has never been a better chance than that offered this season to improve "has been" gowns. The deep hem, the double and triple skirt, the tulle effects and the variously ap- plied panels offer each a solution. In many cases the half worn skirt pro- vided with a new lower section—the "deep hem"—will pass as new if the addition be of a contrasting shade and well adjusted.

If you have a partly worn silk gown, veil it with chiffon or marquisette, either plain or figured, according to the rules of contrast, and you will have an absolutely up to date frock. But do beware of the new idea of imprisoning the gathered skirt at the knees into a tight band of wide bias fold of the material, for it is a fashion that is too ugly to last long. Far prettier are the gathered skirts that are not too full, but that hang perfect- ly straight from waist to hem. Very wide satin ribbons of bright color showing through a mist of black silk tulle or silk net give artistic effects in the hands of a clever dressmaker. Some of the greeny blues are beauti- ful. They are at their best veiled with black or a dull shade of raven's wing. Cornflower blue is seen con- trasting with pink, and a pure purple is trimmed with red currant or ruby reds. I am simply giving you a hint of what is being done in color schemes this season and trust that I have been able to offer some assistance. Let me know if I can give further aid. De- votedly yours, MABEL.

The Onion Odorous.

When peeling an onion the eyes will be less affected if one peels from the stem end upward.

Knives that are used in peeling or cutting an onion should be immedi- ately plunged into boiling water, then rubbed with sand soap and well rinsed or they may flavor the next thing that is cut with them.

There should be a separate grater for onions. Do not use a combined grater in circular form with differ- ent sized teeth for mincing, cheese and cabbage or you may lament spoiled foods.

If the flavor of onions is unpleasant afterward—they are not digestible with every one—use soda mint or a pinch of salt on tongue.

To destroy the odor of onions on the breath have you tried dipping a sprig of parsley into vinegar and then slowly chewing it? It is far more effective than the well known eating of coffee grains or tea leaves.

A suspicion of onion in creamed fish, crabs and other dishes made with a cream sauce will bring out all the sea- soning. The onion can be boiled in the milk and removed before the rest of the ingredients are added.

Rub a bit of onion over dish in which French dressing or mayonnaise is made and it will be much more de- licious.

Remember a hint of onion improves even for those who think the flavor detestable; too much destroys all oth- er flavors.

A hot onion placed on a corn that is inflamed will give relief, provided it is not hot enough to burn.

Vogue of Turned Up Brim.

One of the surprises in the fashion- able world so far has been the great number of hats of moderate size not- withstanding the huge models that flourish at the milliner's and on heads given to bizarre effects. The bicorne is one of the leaders, and in its old marquis shape with a single pompon

THREE SMART HATS.

trimming it is in high style with the girls. The severity of its lines is be- coming to youthful faces.

Turned back brims are seen more than anything else just now. The brim seems to turn to suit its own williness or that of its maker or wear- er and may rise at the front, at the side or the back. Some of the pretty shapes roll abruptly at one side and turn down at the other. Others roll up slightly all around except at the side where the abrupt dip comes. The hats illustrated are among the smartest models of the season.

Commandant

WOMEN NOW
IN PUBLIC EYE

Dominion of the Air Not Entirely
For Male Aviators—English
Noblewomen Raising Chickens.
Girl a Sea Captain at Twenty.

BAERONESS DE LA ROCHE, the foremost woman aviator, is going to take part in future aviation contests. Recently while flying her Voisin biplane she suffered a severe accident, but she has pluckily recovered from this and has not lost her courage.

Aristocratic Poultry Fanciers.

When you keep chickens just bear in mind that you are doing something very aristocratic. Several members of the Four Hundred have gone into poultry raising, and as for over on the other side of the water, real titled people are collecting eggs and planning henhouses. Listen to a few names: Queen Alexandra, whose "Birkles" are famous prize winners; Lady Derby, who raises Black Orpingtons worth \$500 a pair, and Lady Craven, who, being an American, raises Wyandottes, the finest of their kind. Lady Chesterfield, Lady Pilkington, Lady Aylesford, Lady Burton and Lady Titchborne are only a few of the nobility who are cultivating the humble hen, now humble no longer.

A Sea Captain at Twenty.

That a girl can steer straight, if not throw straight, is proved by Miss Isabel Thompson of Brookville, N. J. Mrs. James Hamill, wife of a millionaire yachtsman, noticed the girl's ability in handling sailboats and launches and gave her a position as stewardess on her yacht.

During a storm last summer the shipper lost his head completely, and the boat would have been wrecked but for Miss Thompson, who brought it safe to land. The consequence of this was that Mrs. Hamill made her captain of her steam yacht Good Will.

She Finds Society a Bore.

The Duchess of Roxburgh (Miss May Goelet of New York) is becoming thoroughly tired of the artificial round of social duties and thinks society is an empty life for a woman. She is not the only woman of wealth who is becoming thoughtful on the subject.

A Clever Bowler.

Here is a St. Louis girl who is one of the cleverest women bowlers in the United States. Miss Bertha Kern of

MISS BERTHA KERN.
St. Louis has won many medals. The picture shows her getting a line on the alley before starting the ball.

Most Charitable Woman in the World.

The women of Cologne, Germany, have been more than once held up as examples by the laisseries. They are the most conscientious charity workers in all Germany, perhaps in all the world. Not content with visiting the poor, they personally clean out tenements, scrub floors, paint woodwork, etc. They feed the poor from their own tables. One woman will supply food for a certain number of days or weeks.

RAILROAD BILL
BEING TORN APART

Washington, May 4.—A protracted conference between administration senators regarding the railroad bill closed Tuesday afternoon. They decided to move to table the Cummins amendments and then strike out the whole traffic agreement provision. Clay, democrat, made the latter motion, and the republican regulars counted on democratic support for both propositions.

Heading off a motion by Senator Elkins to lay on the table the Cummins amendment to the traffic agreement provision of the railroad bill, Senator Cummins withdrew his amendment. Mr. Elkins then withdrew the Crawford-Elkins amendment, and Senator Clay presented his amendment to strike out the entire provision. It will be adopted.

Members bustled about on the senate floor today from the moment the session was called to order. The only subject of conversation was the decision of the administration leaders to eliminate from the railroad bill the two sections relating to traffic

agreement and legalizing railroad mergers.

The "insurgents," notwithstanding the announcement that the regulars claimed they would defeat the Cummins amendment before striking out the traffic agreement section, declared they will have scored a decisive victory.

The feeling on the floor was tense. Administration senators claimed that they still were certain of their ability to defeat the Cummins amendment to require changes of rates to be approved before taking effect, but this vote depends upon the agreement that the whole section then will be eliminated.

The insurgents have reached the respectable status of being treated as belligerents," commented Mr. Doliver, just prior to the convening of the senate.

Mr. Doliver and other "insurgent" senators were of the opinion that the senate doing Tuesday would mark an epoch in the history of the railroad bill. The "insurgents" were divided in opinion about the probable fate of the Cummins amendment.

ROOSEVELT IS
DOING DENMARK

Copenhagen, May 4.—The Roosevelts began a charming day in Denmark's capital and adjacent country Tuesday with automobile drive to the castle of Frederiksborg, which was built by Frederick II, in 1562, the main portion being replaced by the present structure in 1802 by Christian IV. In the castle church six Danish kings have been crowned.

A visit to the national museum was made the occasion of a friendly demonstration by the students from the government school.

The students met the party in the great court of the castle, and, waving their college banners, shouted a welcome. Mr. Roosevelt acknowledged the greeting in a brief speech.

The motor drive was then continued to Helsingør. The Roosevelts were accompanied by a party which occupied six more automobiles, and included Foreign Minister Schayvenius and others of the cabinet and several other distinguished personages.

Also in the party were American Minister Egan, Mrs. Egan and Miss Egan, and various officials of the Danish government. The party visited the famous and famous scene of "Hamlet." Col. Roosevelt walked

the ramparts where the ghost appeared.

The Roosevelts, with their party, and many who had come by train from Copenhagen, had luncheon aboard the Scandinavian-American line steamship Queen Maund. Vice Admiral de Richelieu presided and toasted Mr. Roosevelt. The ex-President in responding, said that the only thing lacking about the Danish-Americans in America was that there were not enough of them.

GENERAL ELLIOTT IN MORE
TROUBLE

He is Charged with Having "Forced" Retirement of Lieutenant Colonel Perkins.

Charges that the retirement of Lieutenant Colonel C. M. Perkins, U. S. M. C., was forced in an unwarranted and illegal manner by Major General C. F. Elliott, commandant, are contained in a brief filed in connection with a bill introduced Monday in the House by Representative Galusha of West Virginia, and in the Senate by Senator Clay of Georgia, to restore the officer to the active list

in the service. It is charged that General Elliott set about deliberately to force the retirement of Colonel Perkins and that he was summoned in May, 1907, to appear before an examining board which had been called at the request of General Elliott with no recommendations having been made by a surgeon for such action. It is further set forth that although medical officers and all those whom Colonel Perkins had been associated with testified to his sound mental and physical condition, the board nevertheless recommended his retirement "after thirty years' service" to be effective on Dec. 31, 1907. The charge against him was that he was of unsound mind.

Lieutenant Colonel Perkins was retired by a board as mentally unfit to command in the due course prescribed by law," said Major General Elliott. "Before his retirement he asked for six months' leave at full pay, and after four months I informed him that the law did not allow more than this period of full pay and that he would have to go on half pay. I added that if he wished to retire he could get three-quarters pay. He made application for retirement under the 'thirty years' service' provision shortly afterward. I have made reply to the brief filed in this case, which I think will be readily understood by all who are familiar with the case."

Allen now bearing Easter hat extravagance will shortly cast longing eyes on the straw hat window displays with panamas ranging from \$1 to \$50 "just too lovely for anything."

Some one is surely keeping tabs on Panama canal progress meanwhile, but with the general public the great undertaking was only a matter of nine days' interest.

Now that the reign of Bwana Tumbi is over—for the present—we recommend Africa as a quiet place to spend the vacation period.

The housewife in any city or large town can find "bargains" in foods as readily as in dry goods by simply looking around.

The Sexes in Church.

The separation of the sexes seems to have been formerly by no means an uncommon practice in the Church of England. In fact, Edward VI.'s prayer book specially mentions that at the communion service "the men shall tarry on one side and the women on the other." The papers of a church in Westmorland include elaborate directions for the division of the sexes at its services. All wedded men were to be placed first before any of the young men, and all young wives were to "forbear and come not at their brother-in-law's forms"—this was presumably before the days of the new "as long as my mother-in-law lives."

The Old Home Week plans are being perfected.

HER EASTER FLOWER

A Dead Rosebush and the Way
It Came to Life Again.

By CLARISSA MACKIE.
(Copyright, 1910, by American Press Association.)

Henry Deane walked home from prayer meeting with Rose Brayton. When they stopped at the gate of her home Rose did not invite Henry to come inside, and so he lingered there, as usual, speaking of petty village matters while words of love burned on his lips.

"Rose—Rose," he said at last, "won't you ever forget Jim and love me a little?"

"Please don't say any more, Henry. I like you so much, and it only hurts me to have you speak that way—as if I could ever forget Jim! My heart is buried with him."

"If your heart is buried with him, surely, Rose, it must awaken soon. Look all about you and see the shrubs quickening under the touch of spring and think of the little buried seeds and bulbs in the ground soon to burst forth into new life. Nothing is dead forever, and you were not meant to waste your life mourning over Jim Carey or any other man."

Rose laughed softly, a cold, triumphant smile curving her lips. "Come with me, Henry; I will show you something that is dead—something that will never come to life again. It is dead—dead as my heart!"

Silently he followed her across the grass to a moonlit space blurred by a small shadow in the middle. Rose bent above it, and he saw that it was a rosebush, dry and leafless and without even the promise of swelling buds.

"This rosebush is dead. Jim planted it here the day we became engaged. It bloomed all that summer and fall long after the other roses had faded. It has not blossomed since he died, and it never will again. Now it is dead too."

"How do you know it is?" demanded Henry obstinately. "Perhaps the roots

are alive. It may need pruning." He dropped to his knees and pulled out his pocketknife.

"Don't you touch it, Henry Deane! I would rather it remained dead than any one should bring it to life! It belongs to me—it's mine—my poor little rose!" Her slight form interposed between him and the rosebush, and he got upon his feet, with a strange expression in his eyes.

"Your argument seems unanswerable, Rose, but I know that seemingly dead roses have come to life, and just so surely I predict that some day your buried heart will come to life and love more tenderly than it ever did before."

With a sudden gesture he drew her into his arms and strained her to his breast, and for an instant her cold cheek was pressed against his own. Then he released her, and without another word or glance he turned away and strode out of the gate.

After that evening in the garden he avoided Rose Brayton. He stayed away from church and prayer meeting, where the sermons hinted of the approaching Easter, which on this occasion occurred late in April, with its symbols of resurrection. The reawakening of spring from the deathlike sleep of winter seemed too close to the troubles of his own heart.

One evening he paused and looked over the fence at the bush. It seemed to have shrunk in size, and he gazed intently. Then, with a sudden impulse, he leaped the fence and walked over the grass. It was the same bush, but some hand had carefully pruned the branches until they appeared just above the ground. He broke off one close to the root and placed it in his pocket. All the way home he whistled softly to himself, wondering if Rose had pruned the little bush, hoping it would break forth into new life. Perhaps the awakening of spring was in her veins after all!

In his own room he looked at the branch and saw that the wood was quite dead and decayed. The little bush was dead indeed.

The next day he heard that Rose Brayton had gone away to visit a cousin until Easter, and with the knowledge came a daring idea. He drove over to the town that afternoon and visited a florist.

"I'll do the best I can," said the man doubtfully as he led Henry through the warm, sweet smelling rose houses. The sun shone down through the glass

on the long rows of every variety of rosebush. Red and yellow, pink and white and cream beauties, dotted from graceful stems above Henry's startled eyes.

"Here is a little rose that only be just what you want, sir. It is budding finely now. By forcing it I think I can promise you it will bloom on Easter Sunday. If you put it in the ground, then, as you say you want to do, I won't guarantee that it will live long, but if it's in it sunny garden it may do well after all."

"So long as it blooms on Easter Sunday, I don't care," declared Henry, eagerly, and after completing his arrangements he drove home again.

As he passed the Brayton house he saw Rose's mother bending over the little rosebush in the garden—the one Jim Carey had planted—and he wondered if it had really come to life again.

He visited it late that night, feeling like a murderer as he invaded the silent moonlit garden. But the little bush remained unchanged—in fact, investigation showed that the shrubs were quite dead.

On Good Friday he paid another visit to the florist and came home late at night with a large bundle propped carefully on the seat beside him. He earned that Rose was coming home the next evening. She was to play the organ for the Easter music, and very likely she would go from the train straight to rehearsal in the church.

The moon had waned by this time, and the evenings were dark, and this condition suited Henry's purposes very well. He was in the church when she arrived with a little flurry of greeting from the members of the choir. There was to be a special music for the occasion, and Henry and his violin had been pressed into service.

Rose bent her head in grave satisfaction as she passed him and seated herself at the organ. An instant later all personalities were drowned in the endeavor to bring the choir into accord with the music. When the rehearsal was over Henry did not wait for Rose Brayton. He picked his violin carefully away in its case and went home.

It was long after midnight when he came forth from his own gate bearing a dark object in his arms. In one hand he carried a strong little spade. Although it was dark, the way to the rosebush in Rose Brayton's garden was familiar ground. At last, he stood beside it for an instant irresolute. Around him the darkness seemed to press softly. He could smell the fresh turf, wet by recent rain, and the pungent odor of a yellow-flowering shrub near by.

With a sudden impulse he bent down and dug up the dead roots of the little rosebush Jim Carey had planted. Then he replaced it with a strong, sturdy bush.

He replaced it with a strong, sturdy bush. He dropped to his knees and pulled out his pocketknife.

He replaced it with a strong, sturdy bush. He dropped to his knees and pulled out his pocketknife.

HE REPLACED IT WITH A STRONG, STURDY BUSH.

are alive. It may need pruning." He dropped to his knees and pulled out his pocketknife.

Local Delegates to Convention of Knights of Columbus

The state convention of the Knights of Columbus will be held at Nashua on Thursday.

John Leary, P. J. Browne and John C. Dolan of the Portsmouth council, will attend the same as delegates from this city.

Portsmouth will present a candidate for one of the state offices.

STEAMSHIP COLLISION

One Vessel is Beached and the Other Is Missing

Boston, May 4.—The steel steamship Santurce, out from Boston light for New York was in a terrific crash in the fog off Highland Light during the night with the oil tank steamer Ligonier, and was beached early today in Provincetown harbor. She is a wreck.

The Ligonier, crippled, perhaps a complete wreck, carrying besides her own crew over two-thirds of the crew of the Santurce, at least forty-five men is missing. A dense fog prevails all along the coast.

The Ligonier was equipped with wireless, but none of the wireless stations along the coast from New London to Beverly has been able to communicate with her.

The last report received from the Ligonier shortly after the crash with the Santurce was to the effect that she was badly hurt. Every effort is being made to locate her. A revenue cutter and a tug have hurried to sea.

The search for the Ligonier is being carried on by every wireless operator and life saving station along the entire coast. It is thought likely that the oil steamer, if she is still afloat, is somewhere off Chatham or Wellfleet. If she has sunk the wreck will probably be found in that vicinity. The life savers are waiting for the fog to lift in hope of sighting her.

The Ligonier probably has on board forty men. These include her own crew and about twenty men from the Santurce taken aboard immediately after the crash when it became evident that the Santurce was badly damaged.

The steamers soon became separated by the fog and Ligonier according to the last dispatches received from her wireless, disappeared in the direction of the Cape.

Itching piles provoke profanity, but profanity won't cure them. Doan's Ointment cures itching, bleeding or protruding piles after years of suffering. At any drug store.

AT NAVY YARD

New Hampshire to Stay Till July

Doings of the Day on the Reservation

Rocked the Boat

A young man named Flanigan took a plunge in the river on Tuesday afternoon, just as the workmen's boat, Norah H., was about to leave the navy yard. He was on the house and a sudden rocking of the boat caused the unexpected dip in the stream.

Collier Taking on Coal

The necessary cargo of coal is being put aboard the collier Ajax from one of the yard coal barges.

Drilling About the Yard

The marine guard and two companies of sailors from the U. S. S. New Hampshire were out for drill practice about the yard.

Further Time Granted on the New Hampshire

The department on Tuesday issued another order relative to the U. S. S. New Hampshire, and it is understood that owing to more work the ship has been granted still further time at this station and will not leave until the first week of July.

To Stay at Boston

Orders, which will keep the third submarine flotilla, now at the Boston navy yard, in Boston waters for some time, have just been issued.

It was intended to have the flotilla at Newport, but with the coming of the torpedo boats and destroyers ordered there the dockage facilities will be insufficient. Additional slips cannot be built until the war department establishes a harbor line on the west side of Newport harbor.

Captain Haggerty Repairing the Mary Ann

The floating derrick "Mary Ann," of they and fleet is undergoing extensive repairs and overhauling under the supervision of her skipper, Captain Haggerty. The captain informs his friends that the "Mary Ann" will be the pride of the water front when his plans are completed.

It Looks Good Now

The fact that more time has been granted the U. S. S. New Hampshire in her stay here certainly looks good for the celebration on July 4, and that Senator will succeed in his efforts to have the crew parade in this city on that date.

Ferry Nearly Ready

The ferry 132 which has been under repairs had a dock trial of her machinery today and is expected to resume her trips on Thursday.

The Dates Are Puzzling

The work of removing the coal from the U. S. S. Wisconsin will begin on Thursday. Report on the ship have several dates, as the time fixed for placing the vessel out of commission which are May 7, 12 and 15.

THREE PRETTY TROUT

People See a Fine Catch That Was Made at Newfound Lake

There have been many admirers today for three handsome lake trout displayed in Beane's window. The smallest is estimated to weigh three pounds or more, and the largest twice as much. The genuine weights not being given, everybody has had a chance to express his judgment.

The label states that they were captured by F. L. Eames at Newfound Lake in Bristol.

TO FIGHT THE FIGHT

San Francisco Church Federation Will Enter the Campaign.

San Francisco, May 4.—The San Francisco church federation has decided to enter the campaign against the Jeffries-Johnson fight. It was announced that as soon as the matter was in proper shape it would be laid before Attorney General Webb and Governor Gillett, with a request for

official action to prevent the encounter.

The Presbyterian ministers' union also expressed its disapproval of prize fights. A committee was appointed to draft a communication to Governor Gillett protesting against the big fight.

MRS. W. H. SIDES

Death of Estimable Portsmouth Woman in New Jersey

Mrs. Florence (Hill) Sides, the only daughter of Mr. and Mrs. William K. Hill of this city, and wife of Mr. W. Herman Sides, died at the home in Hackensack, N. J., on Tuesday night after a brief illness with pneumonia. She leaves a son and daughter.

Mrs. Sides was a most estimable young woman and had a host of friends in this city where she always lived until the family located in New York suburb five years ago.

Her husband is connected with a large clothing and furnishing house in the metropolis.

Mrs. Sides was a communicant of Christ church.

Since her removal from Portsmouth she had spent her summers here and kept up her acquaintance with the old home city.

She was twenty-seven years old. Besides her parents, husband and children, she leaves one brother, Sherman Hill of this city.

MANY WILL JOIN

Foresters of America to Have a Large Class in June

A class of candidates for membership in Court Rockingham, Foresters of America, will be initiated in June and a number have already made application for the same. The court will in the future work under a new degree team with Dennis J. McGrath as master.

It is the intention of the court to produce the best initiating company of Foresters in the state.

PERSONALS.

Herman Dow of Laconia is in Portsmouth today.

The condition of Mrs. John Conlon is slowly improving.

Mrs. J. O. Pettigrew has returned from a visit to her sister in Farmington.

H. B. Paten, Mrs. A. B. Paten and Miss Alice K. Paten of Dover are in this city today.

F. H. Grover of Middle street, who has had a serious attack of pneumonia, is improving.

Miss Winnie Stewart of the depot cafe is enjoying a few days' vacation from her work.

James Harvey, Jr., has gone to Lewiston, where he has accepted a position with a moving picture house.

Mr. Charles Tucker is rapidly improving from the accident he met with at the navy yard a few weeks ago.

Miss Grace Cormier of North Berwick is passing a few days in town, a guest of Mr. and Mrs. George E. Robinson of Marcy street.

Michael J. O'Connor on Tuesday received word of the death of a niece, the daughter of his brother, David O'Connor, in Lawrence, Mass.

Musical Director George D. Whittier began on Tuesday to rehearse the high school students in the songs to be sung at the graduation exercises.

THEY OBJECT

Some of the colored people of this city tell this paper that they object to the use of the word "pickaninny" for a child of their race. The word has been much used in the newspapers for several generations, but the fact that some colored people feel that the word implies a patronizing attitude toward their race is a sufficient reason for discontinuing such use.

DID GEORGE DO IT?

Friends of a former employee of the Portsmouth Brewing company, who has been passing several months at his former home in Ireland, say that he has lately taken a bride.

I you haven't the time to exercise regularly Doan's Regulets will prevent constipation. They induce a mild, easy, healthful action of the bowels without griping. Ask your druggist for them.

TOOLS OF POLE AND WIRE MEN

New Regulation for Handling Them on the Railroad

A new order has gone into effect on the Boston and Maine system relative to telephone and telegraph companies operating on the railroad lines.

Hereafter only seventy-five pounds of material or tools will be allowed free transportation with each workman, and all over this weight will be charged as excess baggage on all passenger trains.

In no case will the railroad carry anything weighing over two hundred and fifty pounds.

REPAIR OF BRIDGES

Contract Goes to Eliot Firm—Work to Start at Once

The contract for the rebuilding of the Sagamore and South Mill bridges will go to Alfred Spinnery of Eliot.

The lumber for the same is now being hauled from the freight yards and work will start within a few days.

WHAT'S THE TROUBLE?

North Church Clock Not Striking Correctly

The North church clock is doing some funny stunts of late and, though it's time is correct, the striking apparatus appears to be all to the bad at times.

SINGERS TO CONTINUE

Same Quartet to Sing at the Unitarian Church

The regular quartet of the Unitarian church, Mrs. W. P. Gray, Mrs. O. W. Priest, Ralph S. Parker and Charles W. Gray, have been retained for another season by that church.

NOTICE TO B. B'S

A business meeting of the Button Dusters will be held at I. O. O. F. banquet hall Thursday evening, May 5, at 8 o'clock. Business of importance.
